10. ITMS-IDMD07 Authentication of Documents (For Single Request - 1 to 1,500 pages)

Authentication of documents is important because it ensures that a document is genuine, prevents fraud, and makes it legally valid. It confirms the identity of the person who signed the document and proves that it was executed properly. In legal proceedings, authenticated documents are necessary for admissibility as evidence. Notarized documents are given more weight because they are presumed authentic.

Rule 132 of the Rules of Court; In the Philippines, the legal basis for obtaining a certified true copy (CTC) of official documents is primarily governed by administrative regulations and notarial laws, which outline the procedures and authorities involved in issuing these copies.

Office or Division:	Information and Data Management Division (IDMD)			
Classification:	Simple			
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)			
Who may avail:	All Stakeholders			
Operating Hours:	8:00 AM - 5:00 PM			
Statute:	Rule 132 of the Rules of Court			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. Request letter for Certified True Copy of documents. (1) Original Copy			Applicant / Client	
2. Endorsement Letter from document originator (1) Original Copy			Department of Energy - Concerned Bureaus/Services/Offices	
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Endorse a request letter for authentication. Location: Department of Energy- Main Bldg., Old Lobby, Ground Floor Records Management Section-Receiving Unit Notes/Instruction:	1.1. Receive the endorsement letter of request from concerned bureau/service/office for the Director's instruction, and forward it to the Information and Data Management Division for processing.	None	2 hour/s	Office of the Director-Executive Assistant/ Computer Operator II/ Administrative Aide II; Information Technology and Management Services (ITMS)

1. If the requested document is not in the custody of the Information and Data Management Division (IDMD), we will coordinate with the concerned bureau, service, or office to obtain the original or official copy of the document. 2. For less than 1,500 pages - 3 working days For more than 1,501 pages - 5 working days				- Director; Information Technology and Management Services (ITMS) - Concerned Bureaus/Services/Offices ; DOE - All Bureaus/Services/Offices
	1.2. Check if the requested document is in the custody of IDMD.		15 minute/s	Administrative Officer V/ Administrative Aide VI; Information and Data Management Division (IDMD)
	1.3. Prepare the Billing Statement in the Collection Monitoring System (COMS).		1 hour/s	Administrative Officer V/ Administrative Aide VI; Information and Data Management Division (IDMD)
	1.4. Approve the prepared Billing Statement in the COMS.		1 hour/s	- Division Chief (Approver); Information and Data Management Division (IDMD) - Administrative Officer V (Alternate); Information and Data Management Division (IDMD)
	1.5. Process the Order of Payment in the COMS and email it to the client for payment.		15 minute/s	Accountant IV; Accounting Division (AD)
2. Pay necessary fees as indicated in the	2. Process the payment and issue the Official	Standard Fees	10 minute/s	Collection Officer;

Order of Payment Location: Treasury Division, Ground Floor, DOE- Annex Bldg. Notes/Instruction: The Order of Payment will be generated by the DOE Accounting Division and will be sent to the client's provided email. Once received, the client may settle the payment at the DOE treasury Division. For payments done thru direct bank deposits or online, be sure to secure an Official Receipt from DOE's Treasury Division. Account Name: DOE Trust Fund Account Number: 3982-1098-59 Bank Address: Land Bank of the Philippines - Energy Center Branch Swift Code: TLBPPHMM Beneficiary Address: Department of Energy, Energy Center, BGC, Taguig City Once settled, please provide ITMS-IDMD the proof of payment. 	1.8. Route Approved Document Validation Form to client.		1 working day/s	CMT-III / ISA-II / ISA-I; Information Technology Division (ITD)
2. Receive Approved Document Validation Form Location: Department of Energy	2. Receive and review form	None	3 hour/s, 45 minute/s	Requesting office; Any of requesting office / division
3. Print latest version of the document Location: Department of Energy	3. Review version of document	None	3 hour/s, 45 minute/s	Requesting office; Any of requesting office / division
4. Route printed document to assigned signatories for approval Location: Department of Energy	4. Confirm approval of document	None	3 hour/s, 45 minute/s	Requesting office; Any of requesting office / division

5. Route approved document to ITMS-ITD Location: Department of Energy	5.1. Review signed document	None	3 hour/s, 45 minute/s	CMT-III / ISA-II / ISA-I; Information Technology Division (ITD)
	5.2. Confirm that signed document is the latest version		3 hour/s, 45 minute/s	CMT-III / ISA-II / ISA-I; Information Technology Division (ITD)
	5.3. Indicate initial on signed document		3 hour/s, 45 minute/s	ITO-III / ITO-II; Information Technology Division (ITD)
	5.4. Route the document to ITMS-OD for ITMS Director signature		3 hour/s, 45 minute/s	CMT-III / ISA-II / ISA-I; Information Technology Division (ITD)
	5.5. Receive the document		3 hour/s, 45 minute/s	ITMS-OD; Information Technology and Management Services (ITMS)
	5.6. Approve the document		3 hour/s, 45 minute/s	ITMS Director; Information Technology and Management Services (ITMS)
	5.7. Route the approved document to ITMS-ITD		3 hour/s, 45 minute/s	ITMS-OD; Information Technology and Management Services (ITMS)
	5.8. Route the approved document to the client		3 hour/s, 45 minute/s	CMT-III / ISA-II / ISA-I; Information

				Technology Division (ITD)
6. Receive the approved document. Location: Department of Energy	6. Confirm that document is received	None	3 hour/s, 45 minute/s	Receiving office; Any of requesting office / division
Total Processing Time:		Working Days: 19 working day/s, 1 hour/s		
Total Processing Fee:		Total Standard Fee: None		

4. ITMS-ITD04 Uploading/Posting of Energy Information thru the DOE Website/Portal

The DOE website is a virtual gateway to energy information and services provided by various DOE Bureaus, Services and Units. It offers a wide array of data, statistics, resources, and services accessible to the public.

Office or Division:	Information Technology and Management Services (ITMS)			
Classification:	Simple			
Type of Transaction:	G2G (Government to Government)			
Who may avail:	Requesting DOE Bureaus, Services and Units			
Operating Hours:	7:00 AM - 4:00 PM			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. Memo or Letter of request for web posting (to be emailed) signed by the Requesting Unit Director (1) Original Copy			ITMS - ITD	
<i>Remarks:</i> <i>c/o Requesting Offices</i>				
2. Copy of data requested for posting, in digital or PDF format, including approved graphics, images, or videos, if applicable (1) Electronic Copy			ITMS - ITD	
<i>Remarks:</i> <i>c/o Requesting Offices</i>				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Prepare a memo signed by the Requesting Unit Director with complete attachments Location: Department of Energy	1.1. Acknowledge receipt of request	None	3 hour/s	ITO-III / ITO-II / ITO-I / ISA-II / ISA-I; Information Technology Division (ITD)
Notes/Instruction: Clients to send their requests through email	1.2. Approval of the request		3 hour/s	ITMS, Director; Information Technology and Management

webposting@doe.gov.ph				t Services (ITMS)
CC: ITMS Director, ITD ITO-III <i>Remarks:</i> Client/s to provide additional data or clarification if requested.	1.3. Endorse the request to the concerned ITD Staff		3 hour/s	ITO-III / ITO-II; Information Technology Division (ITD)
2. Provide additional data or clarification, if requested. Location: Department of Energy	2.1. Acknowledge receipt of request	None	3 hour/s, 36 minute/s	ITO-I / ISA-II / ISA-I; Information Technology Division (ITD)
	2.2. Create and edit web contents		3 hour/s, 36 minute/s	ITO-I / ISA-II / ISA-I; Information Technology Division (ITD)
	2.3. Review and upload web resources (PDFs, images, videos)		3 hour/s, 36 minute/s	ITO-I / ISA-II; Information Technology Division (ITD)
	2.4. Approve for posting		3 hour/s, 36 minute/s	ITO-I; Information Technology Division (ITD)
	2.5. Notify the requesting unit of successful posting by email		3 hour/s, 36 minute/s	ITO-I / ISA-II / ISA-I; Information Technology Division (ITD)
Total Processing Time:		Working Days: 3 working day/s		
Total Processing Fee:		Total Standard Fee: None		

Information and Data Management Division (IDMD)

Internal Services

1. ITMS-IDMD04 Provision of Energy Data and Information Through the Energy Data Center (DOE Employees) (for 1-50 data items)

IDMD provides energy data and information to DOE employees to support research and reporting requirements, in accordance with Department Circular No. DC2023-10-0028

Office or Division:	Information and Data Management Division (IDMD)			
Classification:	Simple			
Type of Transaction:	G2G (Government to Government)			
Who may avail:	DOE Units			
Operating Hours:	8:00 AM - 5:00 PM			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. List of data to be requested (1) Original Copy			Applicant / Client	
2. Data Request Form (DRF) (1) Original Copy			Department of Energy - Information and Data Management Division (IDMD)	
<i>Remarks:</i> <i>Electronic Mode: edcp@doe.gov.ph</i>				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Provide the list of data to be requested Location: Energy Data Center of the Philippines (EDCP), 2nd Floor, EDCP Bldg. Department of Energy Notes/Instruction: DOE employees may submit their list of requested data either in person or via email at edcp@doe.gov.ph	1. IDMD shall prepare the Data Request Form (DRF)	None	4 hour/s	Science Research Assistant, Science Research Specialist II, Senior Science Research Specialist ; Information and Data Management Division (IDMD)
2. Sign the DRF with list of available data	2.1. Have the request approved by the concerned division	None	1 working day/s	Division Chief; Petroleum

Location: Energy Data Center of the Philippines (EDCP), 2nd Floor, EDCP Bldg., Department of Energy Notes/Instruction: DOE employees may submit the signed DRF either in person or via email at edcp@doe.gov.ph	(PRDD, CNMD, HOEMD, GEMD, SEMD, BEMD, WEMD) or his/her authorized representative depending on the type of data requested, and by the Chief of the IDMD of his/her duly authorized representative		Resources Development Division (PRDD) • Division Chief; Coal and Nuclear Minerals Division (CNMD) • Division Chief; Solar Energy Management Division (SEMD) • Division Chief; Wind Energy Management Division (WEMD) • Division Chief; Hydropower and Ocean Energy Management Division (HOEMD) • Division Chief; Biomass Energy Management Division (BEMD) • Division Chief; Geothermal Energy Management Division (GEMD)
	2.2. EDCP shall release the data or provide online access to the requested data	1 working day/s	• Science Research Assistant, Science Research Specialist II, Senior Science Research Specialist; Information and Data Management

3. Receive or view the data online Location: Energy Data Center of the Philippines (EDCP), 2nd Floor, EDCP Bldg. Department of Energy Notes/Instruction: DOE employees may access the data either in person or online through the following platforms: 1. https://nedr.doe.gov.ph/ 2. EDCP OneDrive	3. IDMD will monitor the viewing access of the client	None	4 hour/s	t Division (IDMD) • Science Research Assistant or Science Research Specialist II or Senior Science Research Specialist; Information and Data Management Division (IDMD)
General Remarks DOE employee may request for an extension of online viewing either in person or via email at edcp@doe.gov.ph				
Total Processing Time:		Working Days: 3 working day/s		
Total Processing Fee:		Total Standard Fee: None		

2. ITMS-IDMD04-01 Provision of Energy Data and Information Through the Energy Data Center (DOE Employees) (for more than 50 data items)

IDMD provides energy data and information to DOE employees to support research and reporting requirements, in accordance with Department Circular No. DC2023-10-0028

Office or Division:	Information and Data Management Division (IDMD)			
Classification:	Complex			
Type of Transaction:	G2G (Government to Government)			
Who may avail:	DOE Units			
Operating Hours:	8:00 AM - 5:00 PM			
Statute:	Department Circular No. DC2023-10-0028 Guidelines on the Petroleum Data Declassification and Free Data Access			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. List of data to be requested (1) Original Copy			Applicant / Client	
2. Data Request Form (DRF) (1) Original Copy			Department of Energy - Information and Data Management Division (IDMD)	
Remarks: <i>Electronic Mode: edcp@doe.gov.ph</i>				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Provide details of the requested data, e.g., basin, contract no., data type Location: Energy Data Center of the Philippines (EDCP), 2nd Floor, EDCP Bldg. Total Processing Time:		Working Days: 7 working day/s		
Total Processing Fee:		Total Standard Fee: None		

3. ITMS-IDMD08 Publication of DOE Issuances (For single request)

Under the Executive Order No. 200, issued on June 18, 1987, by the then President Corazon C. Aquino, publication of laws, orders, and other official government issuances must be published through the Official Gazette or in a newspaper of general circulation before they become effective. This promotes transparency and ensurance for the public to be properly informed about new laws and regulations.

Office or Division:	Information and Data Management Division (IDMD)			
Classification:	Simple			
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)			
Who may avail:	Department of Energy - Bureaus/Services/Offices			
Operating Hours:	8:00 AM - 5:00 PM			
Statute:	Under the Executive Order No. 200, issued on June 18, 1987, by the then President Corazon C. Aquino			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. Memorandum request (1) Original Copy			Department of Energy - Concerned Bureau/Service/Office	
2. Final and official Word file of the issuance (1) Electronic Copy			Department of Energy - Concerned Bureau/Service/Office	
3. Quotation and layout of the issuance from the publishing companies (1) Electronic Copy Or (1) Original Copy			Applicant / Client	
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Department of Energy concerned Bureau/Service/Office must submit a request for the Publication of the issuance, along with the final and official Word file. Location: ITMS Office, Ground Floor, Department of Energy-Old Bldg. Notes/Instruction:	1.1. Receive the request from concerned Bureau/ Service/ Office for publication of the issuance for the Director's instruction and forward it to the Information and Data Management Division (IDMD) for processing.	None	30 minute/s	• OD-Executive Assistant/ Computer Operator II/ Administrative Aide II ; Information Technology and Management Services (ITMS) • Director; Information Technology

1. Publishing Companies are required to submit quotations and layout via recordspublication@doe.gov.ph			and Management Services (ITMS)
	1.2. Request and gather quotations and layouts from at least three (3) publishing companies.	4 hour/s	Administrative Officer V/ Administrative Officer I; Information and Data Management Division (IDMD)
	1.3. Collate and check the accuracy of the submitted quotations and layout design from the publishing companies and determine the lowest calculated and most responsive bidder/s.	1 working day/s	Administrative Officer V/ Administrative Officer I; Information and Data Management Division (IDMD)
	1.4. Prepare and review the memorandum, matrix, terms of reference, and other relevant documents for the Director's approval,	2 hour/s	Chief Science Research Specialist/ Administrative Officer V, Administrative Officer I; Information and Data Management Division (IDMD)
	1.5. Sign and approve the memorandum, matrix and terms of reference and other relevant documents.	30 minute/s	Director; Information Technology and Management Services (ITMS)
	1.6. Submit the signed documents to the BAC Secretariat for evaluation.	15 minute/s	Administrative Officer I; Information and Data Management Division (IDMD)
	1.7. Check the completeness of the documents based on the Checklist of Requirements for	15 minute/s	Bids and Awards Committee Secretariat; Procurement

Procurement of Goods and Services and forward to the BAC Chairman for approval.		Management Division (PMD)
1.8. Approve the memorandum request for the procurement of publication.	4 hour/s	Bids and Awards Committee Chairman; Office of the Undersecretary
1.9. Conduct and participate in the BAC meeting and award the procurement of publication to the lowest calculated and responsive bidder/s.	1 working day/s	- Bids and Awards Committee members / Technical Working Group / Secretariat/ End-user; DOE Offices, Bureaus, Services, Units - Director; Information Technology and Management Services (ITMS) - Chief SRS; Information and Data Management Division (IDMD)
1.10. Prepare a Letter Order for the winning bidder/s, indicating the date of publication, for the Director's approval.	30 minute/s	- Division Chief/ Administrative Officer I; Information and Data Management Division (IDMD) - Director; Information Technology and Management Services (ITMS)

	1.11. Email the signed Letter Order to the winning bidder/s to proceed with the publication.		20 minute/s	Administrative Officer I; Information and Data Management Division (IDMD)
Total Processing Time:		Working Days: 3 working day/s, 4 hour/s, 20 minute/s		
Total Processing Fee:		Total Standard Fee: None

External Services

1. LS-GLSD01 Issuance of Certification of No Pending or Pendency of Administrative Case and Clearance (External)

This Certification serves as proof whether a requesting deceased/former employee or official of the Department of Energy (DOE) has a pending administrative case filed against him/her in the DOE itself based on records of the Legal Services. This is to ensure that the requesting deceased/former DOE personnel has no pending administrative case before allowing him/her to claim government benefits, clearance, or others.

Submit the duly approved Electronic Modified Disbursement System - Advice of Checks Issued and Cancelled (EMDS-ACIC) together with the duly approved Disbursement Voucher (DV) Location: Receiving Counter, Window 5, Treasury Division, Annex Building, Department of Energy, 34th St. cor. Rizal Drive, BGC, Taguig Clty Notes/Instruction: The processing of credit to the creditor's account is within 24 to 48 hours after the Agency approves the List of Due and Demandable Accounts Payable (LDDAP) transaction , except for transactions that will fall on a Saturday, Sunday, or legal/special holiday which will be credited on the next banking day	1.1. Receive the duly approved Electronic Modified Disbursement System - Advice of Checks Issued and Cancelled (EMDS-ACIC) together with the duly approved Disbursement Voucher (DV)	None	3 minute/s	• Administrative Aide VI; Treasury Division (TD)
	1.2. Place/put an action slip for endorsement to the Division Chief for approval		2 minute/s	• Administrative Aide VI; Treasury Division (TD)
	1.3. Verify the correctness of the EMDS-ACIC as against the DV		3 minute/s	• Administrative Officer III; Treasury Division (TD)
	1.4. Encode the EMDS – ACIC and the DV in the Check Monitoring System (CMS)		5 minute/s	• Administrative Officee I/ Administrative Aide VI; Treasury Division (TD)
	1.5. Check and validate the entries in the CMS as against the DV & EMDS-ACIC		5 minute/s	• Administrative Officer V; Treasury Division (TD)
	1.6. Record in the journal book of deduction the amount in the EMDS – ACIC from NCA balance		2 minute/s	• Administrative Officer V; Treasury Division (TD)
	1.7. Sign the EMDS – ACIC and approve the same online in the LBP - EMDS portal		3 minute/s	• Chief Administrative Officer; Treasury Division (TD)
	1.8. Forward the EMDS-ACIC to the Countersigning Official (either Director for FS/AS/ERTLS for up to P5M or Undersecretary/Director for		3 minute/s	• Administrative Aide VI; Treasury Division (TD)

	EUMB for above P5M) for signature of the ACIC and approval of the transaction online in the LBP-EMDS portal			
Total Processing Time:		Working Days: 26 minute/s		
Total Processing Fee:		Total Standard Fee: None		

4. AS-TD04 Disbursement of Fund Through Check Issuance

Release of payments through check to creditors/ suppliers who cannot be conveniently nor practicably be paid using Manual List of Due and Demandable Accounts Payable - Advice to Debit Account (LDDAP-ADA) or through Electronic Modified Disbursement System (EMDS) which include companies not authorized, per their internal policy, to open current accounts in addition to their existing accounts.

Office or Division:	Treasury Division (TD)			
Classification:	Simple			
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)			
Who may avail:	Suppliers/creditors with duly approved Disbursement Voucher and cannot be conveniently nor practicably be paid using Manual List of Due and Demandable Accounts Payable - Advice to Debit Account (LDDAP-ADA) or through Electronic Modified Disbursement System (EMDS)			
Operating Hours:	8:00 AM - 5:00 PM			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. Duly approved Disbursement Voucher (DV) (1) Original Copy			Department of Energy - Accounting Division	
2. Sales Invoice or Service Invoice (1) Original Copy			Applicant / Client	
3. Company ID Company issued ID				
4. Authorization issued by Supplier (1) Original Copy Or (1) Photo Copy Or (1) Electronic Copy			Applicant / Client	
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submit the duly approved Disbursement Voucher (DV) Location: Receiving Counter, Window 5, Treasury Division, Annex Building, Department of Energy, 34th St. cor. Rizal Drive, BGC, Taguig City Notes/Instruction: The check is ready for pick-up once it has been duly signed by the authorized agency signatories and the transaction has been approved online	1.1. Receive the duly approved Disbursement Voucher (DV)	None	2 minute/s	• Administrative Aide VI; Treasury Division (TD)
	1.2. Verify the correctness of the Disbursement Voucher		3 minute/s	• Administrative Officer III; Treasury Division (TD)
	1.3. Encode the Disbursement Voucher in the Check Monitoring System (CMS)		5 minute/s	• Administrative Officer I/ Administrative Aide VI; Treasury Division (TD)
	1.4. Prepare the check and its corresponding Advice of Check Issued and Cancelled (ACIC) in the LBP-EMDS portal		10 minute/s	• Administrative Officer III; Treasury Division (TD)
	1.5. Review the correctness of check and ACIC as against the DV		3 minute/s	• Administrative Officer V ; Treasury Division (TD)
	1.6. Check and validate the entries in the CMS as against the DV, Check, and ACIC		5 minute/s	• Administrative Officer V; Treasury Division (TD)
	1.7. Record in the journal book of deduction the amount of the check from NCA balance		2 minute/s	• Administrative Officer V; Treasury Division (TD)
	1.8. Sign the check and ACIC and approve the same online in		3 minute/s	• Chief Administrative

	the LBP-EMDS portal			Officer or Supervising Administrative Officer; Treasury Division (TD)
	1.9. Forward the Check together with its ACIC to the Countersigning Official (either Director for FS/AS/ERTLS for up to P5M or Undersecretary/Director for EUMB for above P5M) for signature and online approval of the same in the LBP-EMDS portal		3 minute/s	Administrative Aide VI; Treasury Division (TD)
2. Present a valid company ID and an authorization from their company to receive the check Location: Check Releasing Counter, Window 3, Treasury Division, Annex Building, Department of Energy, 34th St. cor Rizal Drive, BGC, Taguig City	2. Verify the identity of the receiver or authorize representative to receive the check	None	2 minute/s	Administrative Assistant II; Treasury Division (TD)
3. Issue a sales/service invoice in exchange for the check payment Location: Check Releasing Counter, Window 3, Treasury Division, Annex Building, Department of Energy, 34th St. cor Rizal Drive, BGC, Taguig City Notes/Instruction: Upon receipt of the check, review the check's details to ensure they are correct before leaving	3.1. Release the check and return the presented identification 3.2. Receive the sales/service invoice	None	1 minute/s 1 minute/s	- Administrative Assistant II; Treasury Division (TD) - Administrative Assistant II/Administrative Aide VI; Treasury Division (TD)
Total Processing Time:		Working Days: 40 minute/s		
Total Processing Fee:		Total Standard Fee: None		

5. AS-TD05 Enrollment of Creditor's Account to the Electronic Modified Disbursement System (for Landbank account holder)

Enrollment of creditor's account to the Electronic Modified Disbursement System of the Land Bank of the Philippines (LBP-EMDS) to process payments to internal creditors.

Office or Division:	Treasury Division (TD)			
Classification:	Simple			
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)			
Who may avail:	Creditors/suppliers who have an existing or active Landbank account. The Electronic Modified Disturbment System (EMDS) is a secured internet banking facility for National Government Agencies (NGAs), including the Bureau of the Treasury and the Department of Budget and Management, which offers banking convenience to perform Modified Disbursement System's (MDS) transactions online.			
Operating Hours:	8:00 AM - 5:00 PM			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. Any proof of a bank account (such as Bank Statement or Bank Certificate) (1) Original Copy Or (1) Electronic Copy Or (1) Photo Copy			Landbank of the Philippines - New Accounts Section	
2. Duly accomplished Request to Enroll Account to LBP EMDS (1) Original Copy			Department of Energy - Window 4, Treasury Division	
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submit an accomplished "Request to Enroll Account to LBP-EMDS" form together with the copy of the proof of bank account Location: Window 4, Treasury Division, Annex Building, Department of Energy, 34th St. cor. Rizal Drive, BGC, Taguig City Notes/Instruction: The creditor's bank account will only reflect in the LBP-EMDS portal within 24 hours after submission of the LBP-IC enrollment form to Landbank branch	1.1. Receive and verify if the entries in the submitted "Request to Enroll Account to LBP-EMDS" form is the same as the submitted proof of bank account	None	3 minute/s	• Administrative Assistant II; Treasury Division (TD)
	1.2. Prepare the LBP-Internal Creditors (IC) enrollment form		3 minute/s	• Administrative Assistant II; Treasury Division (TD)
	1.3. Verify the correctness of the LBP-IC enrollment form as against the submitted proof of bank account		2 minute/s	• Supervising Administrative Officer ; Treasury Division (TD)
	1.4. Sign the LBP-IC enrollment form		2 minute/s	• Chief Administrative Officer ; Treasury Division (TD)
	1.5. Forward the LBP-IC enrollment form to the countersigning official for signature		3 minute/s	• Administrative Aide VI; Treasury Division (TD)
	1.6. Submit the LBP-IC enrollment form to the Landbank of the Philippines-Energy Center Branch for enrollment		20 minute/s	• Administrative Aide VI; Treasury Division (TD)
Total Processing Time:		Working Days: 33 minute/s		
Total Processing Fee:		Total Standard Fee: None		

Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
External Services

1. ERTLS-GRFTLD01 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - TEN (10) WORKING DAYS

ISO 9001:2015 Certified

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
<i>Remarks:</i>		
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i>		

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

D.b. Unconsolidated Sample

D.b.1. Unconsolidated Sample
(Sample: 50 grams)

Applicant / Client

Remarks:

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

E. Oil and Gas Sample

E.1. Oil and Gas Sample
(Sample: 1 liter / kilogram)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

F. LPG / Natural Gas

F.1. LPG / Natural Gas
(Sample: 60 psi)

Applicant / Client

Remarks:

Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses.

Sample size/weight depends on the test parameters requested.

G. Crude Oil

G.1. Crude Oil
(Sample: 500 milliliters)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director

- Geothermal Coal Section -coal and geothermal water samples
- Processed Fuels Section - petroleum and biofuel samples
- Geology Section -rock samples

Oil and Gas Section - geothermal gas, biogas or synthesis gas B) For Agency Action (Step 1.6): The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing Laboratory Services (ERTLS)
	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample		8 working day/s	Supervising Science Research Specialist / Senior

	Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist			Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 10 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	

	Volatile Combustible Matter, VCM	750.00	
	Sample Preparation	650.00	
	Sieve Analysis (per size)	200.00	
	Total Sulfur, S	1,250.00	
	Geothermal Water Analysis		
	Alkalinity	500.00	
	Arsenic (As)	900.00	
	Boron (B)	600.00	
	Cadmium	400.00	
	Calcium (Ca)	400.00	
	Cesium (Cs)	400.00	
	Chloride (Cl)	550.00	
	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	

Methyl Laurate in Biodiesel	3,750.00	
Succeeding Run	1,950.00	
Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
Succeeding Run	4,450.00	
Total Acid Number in Biodiesel, Color Indicator	1,625.00	
Total Acid Number in Biodiesel, Potentiometric	2,100.00	
Total Glycerin in Biodiesel	2,750.00	
Bioethanol		
Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
Succeeding Run	1,650.00	
Total Acidity (as Acetic Acid) in Bioethanol	550.00	
Crude Oil		
C12 + Components of Whole Oil / Saturate Fraction	3,950.00	
Degree API Gravity of Oil Containing Water and Sediments	590.00	
Degree API Gravity of Oil Without Sample Preparation	450.00	
Extractable Organic Matter (EOM)	5,220.00	
Fractional Distillation of Crude Oil	1,880.00	
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00	
Separation of Crude Oil / Petroleum from Water and Sediments	600.00	
Gas Condensate		
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00	
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00	
Isotope Analysis		
C13 Isotope in Gas Sample	9,950.00	
Succeeding Run	5,350.00	
N15 Isotope in Various Samples	13,700.00	New
Succeeding Run	8,700.00	New
O18 Isotope in Water Sample	10,100.00	
Succeeding Run	5,350.00	
S34 Isotope in Various Samples	13,600.00	
Succeeding Run	8,650.00	
Natural Gas and Biogas		
CO ₂ and H ₂ S Gases	1,250.00	
Hydrocarbon Gases (C1-C4)	3,500.00	
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00	
Source Rock and Cuttings		
Pyrolysis of Source Rock	2,700.00	
Sample Preparation for Dry Cuttings	450.00	
Sample preparation for wet Cuttings	540.00	

Total organic / Inorganic Carbon	3,050.00	
Tetrafluoroethane		
Tetrafluoroethane / R134a		
With Standard	3,320.00	
Without Standard	3,100.00	
Processed Fuels Section Laboratory Services	Amount	Remarks
Processed Fuels		
API Gravity/Density/Specific Gravity (Hydrometer)	600.00	
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00	New
Acidity/Alkalinity, pH	600.00	New
Aromatics with Oxygenates, % Volume	6100	
Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New

Geology Section Laboratory Services	Octane Number, RON (CFR)	10,400.00	
	Oxidation Stability, Hours	4,600.00	
	Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
	Succeeding Run	4,400.00	New
	Pour Point, °C	1,100.00	
	Sediment by Extraction, % Volume	2,200.00	
	Sulfur, % Mass (UVF)	2,300.00	
	Sulfur, % Mass (WD-XRF)	3,000.00	New
	Sulfur, % Mass (XRF)	2,100.00	
	Vapor Pressure, kPa	900.00	
	Viscosity Index	1,800.00	
	Water and Sediments, % Volume	1,100.00	
	Water by Distillation, % Volume	1,000.00	
	Water by Karl Fischer, % Volume - Volumetric	1,300.00	
	Water by Karl Fischer, % Volume - Coulometric	3,300.00	New
	Wear Metals/Trace Metals, % Volume (per Metal)	800.00	
		Amount	Remarks
	Processing/Sample Preparation		
	Coal - Impregnated Polished Section (Briquette)	1,700.00	
	Coal - Polished Section (Whole Sample)	950.00	
	Drying of Ditch Cutting Samples (per Box)	600.00	
	Impregnated Polished Thin Section (Opaque Minerals)	1,700.00	
	Impregnated Polished Thin Section	1,500.00	
	Impregnated Polished Thin Section with Blue Dye	1,800.00	
	Normal Thin Section	1,200.00	
	Plain Slabbing/Plain Cutting	300.00	
	Polished Thin Section (for Opaque Minerals)	1,500.00	
	Polished Slab (Max Dimension 3x2x1 inches)	400.00	
	Smear Slide (Calcareous Nanno Fossils)	400.00	
	Staining using Alizarin Red (1-5 Sample/s)	100.00

Proximate Analysis, Ultimate Analysis and Heating Value Determination	1-6		
Ultimate Analysis (CHNAS)	1-6		
Coal Sample/s Without Sample Preparation			
Proximate Analysis	1-15		
Proximate Analysis, Heating Value and Sulfur Analysis	1-15		
-Including Residual Moisture, Heating Value and Sulfur Only			
Proximate Analysis, Heating Value and Ultimate Analysis	1-12		

Ultimate Analysis 1-12
Biomass Sample/s Without Sample Preparation

Proximate Analysis 1-5

Proximate Analysis and Heating Value 1-5

-Including Residual Moisture and Heating Value Only

Residual Moisture, Volatile Combustible Matter and Heating Value 1-15

Carbon, Hydrogen and Nitrogen 1-20

Geothermal Water Samples

Complete Ion Analysis 1-5

Oil and Gas Section

Analysis of Crude Oil 1-5

Analysis of Natural Gas / Biogas 1-15

Analysis of Stable Isotope 1-5

PNS Test for B100: GC Analysis 1-5

PNS Test for E100: GC Analysis 1-10

Analysis of Liquefied Petroleum Gas 1-5

Geology Section

Micropaleontological / Petrographic / XRD / Organic Petrographic Analysis 1-3

Drying of ditch cutting samples 1-30

Remarks:

a. Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.

b. ISO 9001:2015 certified processes

2. ERTLS-GRFTLD01-01 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - FIFTEEN (15) WORKING DAYS

ISO 9001:2015 Certified

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
<i>Remarks:</i>		
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i>		

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

D.b. Unconsolidated Sample

D.b.1. Unconsolidated Sample
(Sample: 50 grams)

Applicant / Client

Remarks:

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

E. Oil and Gas Sample

E.1. Oil and Gas Sample
(Sample: 1 liter / kilogram)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

F. LPG / Natural Gas

F.1. LPG / Natural Gas
(Sample: 60 psi)

Applicant / Client

Remarks:

Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses.

Sample size/weight depends on the test parameters requested.

G. Crude Oil

G.1. Crude Oil
(Sample: 500 milliliters)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director

- Geothermal Coal Section -coal and geothermal water samples
- Processed Fuels Section - petroleum and biofuel samples
- Geology Section -rock samples

Oil and Gas Section - geothermal gas, biogas or synthesis gas B) For Agency Action (Step 1.6): The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing Laboratory Services (ERTLS)
	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample		13 working day/s	Supervising Science Research Specialist / Senior

	Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist			Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 15 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	

	Volatile Combustible Matter, VCM	750.00	
	Sample Preparation	650.00	
	Sieve Analysis (per size)	200.00	
	Total Sulfur, S	1,250.00	
	Geothermal Water Analysis		
	Alkalinity	500.00	
	Arsenic (As)	900.00	
	Boron (B)	600.00	
	Cadmium	400.00	
	Calcium (Ca)	400.00	
	Cesium (Cs)	400.00	
	Chloride (Cl)	550.00	
	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	

Methyl Laurate in Biodiesel	3,750.00	
Succeeding Run	1,950.00	
Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
Succeeding Run	4,450.00	
Total Acid Number in Biodiesel, Color Indicator	1,625.00	
Total Acid Number in Biodiesel, Potentiometric	2,100.00	
Total Glycerin in Biodiesel	2,750.00	
Bioethanol		
Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
Succeeding Run	1,650.00	
Total Acidity (as Acetic Acid) in Bioethanol	550.00	
Crude Oil		
C12 + Components of Whole Oil / Saturate Fraction	3,950.00	
Degree API Gravity of Oil Containing Water and Sediments	590.00	
Degree API Gravity of Oil Without Sample Preparation	450.00	
Extractable Organic Matter (EOM)	5,220.00	
Fractional Distillation of Crude Oil	1,880.00	
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00	
Separation of Crude Oil / Petroleum from Water and Sediments	600.00	
Gas Condensate		
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00	
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00	
Isotope Analysis		
C13 Isotope in Gas Sample	9,950.00	
Succeeding Run	5,350.00	
N15 Isotope in Various Samples	13,700.00	New
Succeeding Run	8,700.00	New
O18 Isotope in Water Sample	10,100.00	
Succeeding Run	5,350.00	
S34 Isotope in Various Samples	13,600.00	
Succeeding Run	8,650.00	
Natural Gas and Biogas		
CO ₂ and H ₂ S Gases	1,250.00	
Hydrocarbon Gases (C1-C4)	3,500.00	
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00	
Source Rock and Cuttings		
Pyrolysis of Source Rock	2,700.00	
Sample Preparation for Dry Cuttings	450.00	
Sample preparation for wet Cuttings	540.00	

Total organic / Inorganic Carbon	3,050.00	
Tetrafluoroethane		
Tetrafluoroethane / R134a		
With Standard	3,320.00	
Without Standard	3,100.00	
Processed Fuels Section Laboratory Services	Amount	Remarks
Processed Fuels		
API Gravity/Density/Specific Gravity (Hydrometer)	600.00	
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00	New
Acidity/Alkalinity, pH	600.00	New
Aromatics with Oxygenates, % Volume	6100	
Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New

Geology Section Laboratory Services	Octane Number, RON (CFR)	10,400.00	
	Oxidation Stability, Hours	4,600.00	
	Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
	Succeeding Run	4,400.00	New
	Pour Point, °C	1,100.00	
	Sediment by Extraction, % Volume	2,200.00	
	Sulfur, % Mass (UVF)	2,300.00	
	Sulfur, % Mass (WD-XRF)	3,000.00	New
	Sulfur, % Mass (XRF)	2,100.00	
	Vapor Pressure, kPa	900.00	
	Viscosity Index	1,800.00	
	Water and Sediments, % Volume	1,100.00	
	Water by Distillation, % Volume	1,000.00	
	Water by Karl Fischer, % Volume - Volumetric	1,300.00	
	Water by Karl Fischer, % Volume - Coulometric	3,300.00	New
	Wear Metals/Trace Metals, % Volume (per Metal)	800.00	
		Amount	Remarks
	Processing/Sample Preparation		
	Coal - Impregnated Polished Section (Briquette)	1,700.00	
	Coal - Polished Section (Whole Sample)	950.00	
	Drying of Ditch Cutting Samples (per Box)	600.00	
	Impregnated Polished Thin Section (Opaque Minerals)	1,700.00	
	Impregnated Polished Thin Section	1,500.00	
	Impregnated Polished Thin Section with Blue Dye	1,800.00	
	Normal Thin Section	1,200.00	
	Plain Slabbing/Plain Cutting	300.00	
	Polished Thin Section (for Opaque Minerals)	1,500.00	
	Polished Slab (Max Dimension 3x2x1 inches)	400.00	
	Smear Slide (Calcareous Nanno Fossils)	400.00	
	Staining using Alizarin Red (1-5 Sample/s)	100.00	
	Washed Residue (Foraminifera)	400.00	
	XRD-Extraction and Air Drying for Oriented Clay	500.00	New
	XRD-Glycol Treatment for Oriented Clay Sample	300.00	New
	XRD-Heat Treatment at 400°C for Oriented Clay	350.00	New
	XRD-Heat Treatment at 500°C for Oriented Clay	350.00	New
	XRD-Powdering for Random Sample	250.00	New
	Analysis		
	Coal - Vitritine Reflectance measurement	3,500.00	New
	Coal - Maceral Identification	4,000.00	New

	Megascopic/Hand Specimen Rock Identification	500.00	
	Micropaleontological Analysis of Rock Sample (Foraminifera)	1,900.00	
	Micropaleontological Analysis of Rock Sample (Nanno Fossil)	1,500.00	
	Petrographic Analysis of Rock Sample	1,500.00	
	X-ray Diffraction Analysis per Scan	2,000.00	New
	X-ray Diffraction, Interpretation	1,500.00	New
Other Services Laboratory Services	Amount		Remarks
	Biostratigraphic Report of Well		
	First 7,000 feet / 2,133 meters)	48,000.00	
	(excluding Sample Preparation and Analysis)		
	For Succeeding 1,000 ft or a fraction thereof; 10% of computed cost	4,800.00	
	Photomicrography of Fossils (1-5 Samples, final shot/s)	400.00	
	Photomicrography of Rocks (1-5 Samples, final shot/s)	500.00

2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample		18 working day/s	Supervising Science Research Specialist / Senior

	Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist			Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 20 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	

	Volatile Combustible Matter, VCM	750.00	
	Sample Preparation	650.00	
	Sieve Analysis (per size)	200.00	
	Total Sulfur, S	1,250.00	
	Geothermal Water Analysis		
	Alkalinity	500.00	
	Arsenic (As)	900.00	
	Boron (B)	600.00	
	Cadmium	400.00	
	Calcium (Ca)	400.00	
	Cesium (Cs)	400.00	
	Chloride (Cl)	550.00	
	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	

Methyl Laurate in Biodiesel	3,750.00	
Succeeding Run	1,950.00	
Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
Succeeding Run	4,450.00	
Total Acid Number in Biodiesel, Color Indicator	1,625.00	
Total Acid Number in Biodiesel, Potentiometric	2,100.00	
Total Glycerin in Biodiesel	2,750.00	
Bioethanol		
Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
Succeeding Run	1,650.00	
Total Acidity (as Acetic Acid) in Bioethanol	550.00	
Crude Oil		
C12 + Components of Whole Oil / Saturate Fraction	3,950.00	
Degree API Gravity of Oil Containing Water and Sediments	590.00	
Degree API Gravity of Oil Without Sample Preparation	450.00	
Extractable Organic Matter (EOM)	5,220.00	
Fractional Distillation of Crude Oil	1,880.00	
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00	
Separation of Crude Oil / Petroleum from Water and Sediments	600.00	
Gas Condensate		
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00	
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00	
Isotope Analysis		
C13 Isotope in Gas Sample	9,950.00	
Succeeding Run	5,350.00	
N15 Isotope in Various Samples	13,700.00	New
Succeeding Run	8,700.00	New
O18 Isotope in Water Sample	10,100.00	
Succeeding Run	5,350.00	
S34 Isotope in Various Samples	13,600.00	
Succeeding Run	8,650.00	
Natural Gas and Biogas		
CO ₂ and H ₂ S Gases	1,250.00	
Hydrocarbon Gases (C1-C4)	3,500.00	
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00	
Source Rock and Cuttings		
Pyrolysis of Source Rock	2,700.00	
Sample Preparation for Dry Cuttings	450.00	
Sample preparation for wet Cuttings	540.00	

Total organic / Inorganic Carbon	3,050.00	
Tetrafluoroethane		
Tetrafluoroethane / R134a		
With Standard	3,320.00	
Without Standard	3,100.00	
Processed Fuels Section Laboratory Services	Amount	Remarks
Processed Fuels		
API Gravity/Density/Specific Gravity (Hydrometer)	600.00	
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00	New
Acidity/Alkalinity, pH	600.00	New
Aromatics with Oxygenates, % Volume	6100	
Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New

Geology Section Laboratory Services	Octane Number, RON (CFR)	10,400.00	
	Oxidation Stability, Hours	4,600.00	
	Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
	Succeeding Run	4,400.00	New
	Pour Point, °C	1,100.00	
	Sediment by Extraction, % Volume	2,200.00	
	Sulfur, % Mass (UVF)	2,300.00	
	Sulfur, % Mass (WD-XRF)	3,000.00	New
	Sulfur, % Mass (XRF)	2,100.00	
	Vapor Pressure, kPa	900.00	
	Viscosity Index	1,800.00	
	Water and Sediments, % Volume	1,100.00	
	Water by Distillation, % Volume	1,000.00	
	Water by Karl Fischer, % Volume - Volumetric	1,300.00	
	Water by Karl Fischer, % Volume - Coulometric	3,300.00	New
	Wear Metals/Trace Metals, % Volume (per Metal)	800.00	
		Amount	Remarks
	Processing/Sample Preparation		
	Coal - Impregnated Polished Section (Briquette)	1,700.00	
	Coal - Polished Section (Whole Sample)	950.00	
	Drying of Ditch Cutting Samples (per Box)	600.00	
	Impregnated Polished Thin Section (Opaque Minerals)	1,700.00	
	Impregnated Polished Thin Section	1,500.00	
	Impregnated Polished Thin Section with Blue Dye	1,800.00	
	Normal Thin Section	1,200.00	
	Plain Slabbing/Plain Cutting	300.00	
	Polished Thin Section (for Opaque Minerals)	1,500.00	
	Polished Slab (Max Dimension 3x2x1 inches)	400.00	
	Smear Slide (Calcareous Nanno Fossils)	400.00	
	Staining using Alizarin Red (1-5 Sample/s)	100.00	
	Washed Residue (Foraminifera)	400.00	
	XRD-Extraction and Air Drying for Oriented Clay	500.00	New
	XRD-Glycol Treatment for Oriented Clay Sample	300.00	New
	XRD-Heat Treatment at 400°C for Oriented Clay	350.00	New
	XRD-Heat Treatment at 500°C for Oriented Clay	350.00	New
	XRD-Powdering for Random Sample	250.00	New
	Analysis		
	Coal - Vitritine Reflectance measurement	3,500.00	New
	Coal - Maceral Identification	4,000.00	New

	Megascopic/Hand Specimen Rock Identification	500.00	
	Micropaleontological Analysis of Rock Sample (Foraminifera)	1,900.00	
	Micropaleontological Analysis of Rock Sample (Nanno Fossil)	1,500.00	
	Petrographic Analysis of Rock Sample	1,500.00	
	X-ray Diffraction Analysis per Scan	2,000.00	New
	X-ray Diffraction, Interpretation	1,500.00	New
Other Services Laboratory Services	Amount		Remarks
	Biostratigraphic Report of Well		
	First 7,000 feet / 2,133 meters)	48,000.00	
	(excluding Sample Preparation and Analysis)		
	For Succeeding 1,000 ft or a fraction thereof; 10% of computed cost	4,800.00	
	Photomicrography of Fossils (1-5 Samples, final shot/s)	400.00	
	Photomicrography of Rocks (1-5 Samples, final shot/s)	500.00	
CONDUCT OF SAMPLE PREPARATION / TESTING / ANALYSIS ^a			
	Number of Samples		
Processed Fuels Section			
PNS Test for Automotive Diesel Oil ^b	15-19		
PNS Test for B100 ^b	10-12		
PNS Test for E100 ^b	21-25		
PNS Test for Fuel Oil (Industrial) ^b	11-14		
PNS Test for Gasoline ^b	10-12		
PNS Test for Kerosene	21-25		
Non-PNS Test for Diesel ^b	21-25		
Non-PNS Test for Gasoline ^b	21-25		
Other Samples e.g. Pyrolysis Oil and Biofuel from other feedstocks	11-14		
Geothermal-Coal Section			
Coal and Other Related Sample/s			
Coal Sample/s With Sample Preparation			
Proximate Analysis	16-24		
Proximate Analysis, Heating Value and Sulfur Analysis	16-24		
-Including Residual Moisture, Heating Value and Sulfur Only			
Proximate Analysis, Ultimate Analysis and Heating Value Determination	16-24		
Ultimate Analysis (CHNAS)	16-24		
Coal Sample/s Without Sample Preparation			
Proximate Analysis	25-33		
Proximate Analysis, Heating Value and Sulfur Analysis	25-33		
-Including Residual Moisture, Heating Value and Sulfur Only			
Proximate Analysis, Heating Value and Ultimate Analysis	22-30		

Ultimate Analysis	22-30
Biomass Sample/s Without Sample Preparation	
Proximate Analysis	10-13
Proximate Analysis and Heating Value	10-13
-Including Residual Moisture and Heating Value Only	
Residual Moisture, Volatile Combustible Matter and Heating Value	25-33
Carbon, Hydrogen and Nitrogen	33-44
Geothermal Water Samples	
Complete Ion Analysis	11-15
Oil and Gas Section	
Analysis of Crude Oil	8-9
Analysis of Natural Gas / Biogas	26-35
Analysis of Stable Isotope	8-9
PNS Test for B100: GC Analysis	8-9
PNS Test for E100: GC Analysis	14-16
Analysis of Liquefied Petroleum Gas	8-9
Geology Section	
Micropaleontological / Petrographic / XRD / Organic Petrographic Analysis	6-7
Drying of ditch cutting samples	61-90

Remarks:

- Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.
- ISO 9001:2015 certified processes

4. ERTLS-GRFTLD01-03 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - TWENTY-FIVE (25) WORKING DAYS

ISO 9001:2015 Certified

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client

<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.				
E. Oil and Gas Sample				
E.1. Oil and Gas Sample (Sample: 1 liter / kilogram)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
F. LPG / Natural Gas				
F.1. LPG / Natural Gas (Sample: 60 psi)			Applicant / Client	
<i>Remarks:</i> Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses. Sample size/weight depends on the test parameters requested.				
G. Crude Oil				
G.1. Crude Oil (Sample: 500 milliliters)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section -coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section -rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; Energy Research and Testing Laboratory Services (ERTLS)
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing

B) For Agency Action (Step 1.6): <i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>				Laboratory Services (ERTLS)
	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: ColleTreasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		23 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ;

				Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 25 working day/s
Total Processing Fee:	Total Standard Fee: None

Total Acidity (as Acetic Acid) in Bioethanol	550.00	
Crude Oil		
C12 + Components of Whole Oil / Saturate Fraction	3,950.00	
Degree API Gravity of Oil Containing Water and Sediments	590.00	
Degree API Gravity of Oil Without Sample Preparation	450.00	
Extractable Organic Matter (EOM)	5,220.00	
Fractional Distillation of Crude Oil	1,880.00	
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00	
Separation of Crude Oil / Petroleum from Water and Sediments	600.00	
Gas Condensate		
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00	
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00	
Isotope Analysis		
C13 Isotope in Gas Sample	9,950.00	
Succeeding Run	5,350.00	
N15 Isotope in Various Samples	13,700.00	New
Succeeding Run	8,700.00	New
O18 Isotope in Water Sample	10,100.00	
Succeeding Run	5,350.00	
S34 Isotope in Various Samples	13,600.00	
Succeeding Run	8,650.00	
Natural Gas and Biogas		
CO ₂ and H ₂ S Gases	1,250.00	
Hydrocarbon Gases (C1-C4)	3,500.00	
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00	
Source Rock and Cuttings		
Pyrolysis of Source Rock	2,700.00	
Sample Preparation for Dry Cuttings	450.00	
Sample preparation for wet Cuttings	540.00	
Total organic / Inorganic Carbon	3,050.00	
Tetrafluoroethane		
Tetrafluoroethane / R134a		
With Standard	3,320.00	
Without Standard	3,100.00	
Processed Fuels Section Laboratory Services	Amount	Remarks
Processed Fuels

Geothermal-Coal Section

Coal and Other Related Sample/s

Coal Sample/s With Sample Preparation

Proximate Analysis 25-33

Proximate Analysis, Heating Value and Sulfur Analysis 25-33

-Including Residual Moisture, Heating Value and Sulfur Only

Proximate Analysis, Ultimate Analysis and Heating Value Determination 25-33

Ultimate Analysis (CHNAS) 25-33

Coal Sample/s Without Sample Preparation

Proximate Analysis 34-42

Proximate Analysis, Heating Value and Sulfur Analysis 34-42

-Including Residual Moisture, Heating Value and Sulfur Only

Proximate Analysis, Heating Value and Ultimate Analysis 31-39

Ultimate Analysis 31-39

Biomass Sample/s Without Sample Preparation

Proximate Analysis 14-17

Proximate Analysis and Heating Value 14-17

-Including Residual Moisture and Heating Value Only

Residual Moisture, Volatile Combustible Matter and Heating Value 34-42

Carbon, Hydrogen and Nitrogen 45-56

Geothermal Water Samples

Complete Ion Analysis 16-20

Oil and Gas Section

Analysis of Crude Oil 10-11

Analysis of Natural Gas /
Biogas 36-45

Analysis of Stable Isotope 10-11

PNS Test for B100: GC
Analysis 10-11

PNS Test for E100: GC
Analysis 17-19

Analysis of Liquefied Petroleum
Gas 10-11

Geology Section

Micropaleontological /
Petrographic / XRD / Organic
Petrographic Analysis 8-9

Drying of ditch cutting samples 91-120

Remarks:

a. Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.

b. ISO 9001:2015 certified processes

5. ERTLS-GRFTLD01-04 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - THIRTY (30) WORKING DAYS

ISO 9001:2015 Certified

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client

<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.				
E. Oil and Gas Sample				
E.1. Oil and Gas Sample (Sample: 1 liter / kilogram)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
F. LPG / Natural Gas				
F.1. LPG / Natural Gas (Sample: 60 psi)			Applicant / Client	
<i>Remarks:</i> Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses. Sample size/weight depends on the test parameters requested.				
G. Crude Oil				
G.1. Crude Oil (Sample: 500 milliliters)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section -coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section -rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing

B) For Agency Action (Step 1.6): <i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Laboratory Services (ERTLS) Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		28 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ;

				Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 30 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	
Volatile Combustible Matter, VCM	750.00	
Sample Preparation	650.00	
Sieve Analysis (per size)	200.00	
Total Sulfur, S	1,250.00	
Geothermal Water Analysis		
Alkalinity	500.00	
Arsenic (As)	900.00	
Boron (B)	600.00	
Cadmium	400.00	
Calcium (Ca)	400.00	

	Cesium (Cs)	400.00	
	Chloride (Cl)	550.00	
	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New

Micropaleontological / Petrographic / XRD / Organic Petrographic Analysis 10-11

Drying of ditch cutting samples 121-150

Remarks:

a. Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.

b. ISO 9001:2015 certified processes

6. ERTLS-GRFTLD01-05 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - THIRTY-FIVE (35) WORKING DAYS

ISO 9001:2015 Certified

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client

<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.				
E. Oil and Gas Sample				
E.1. Oil and Gas Sample (Sample: 1 liter / kilogram)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
F. LPG / Natural Gas				
F.1. LPG / Natural Gas (Sample: 60 psi)			Applicant / Client	
<i>Remarks:</i> Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses. Sample size/weight depends on the test parameters requested.				
G. Crude Oil				
G.1. Crude Oil (Sample: 500 milliliters)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section -coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section -rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing

B) For Agency Action (Step 1.6): <i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Laboratory Services (ERTLS) Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		33 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ;

				Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 35 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	
Volatile Combustible Matter, VCM	750.00	
Sample Preparation	650.00	
Sieve Analysis (per size)	200.00	
Total Sulfur, S	1,250.00	
Geothermal Water Analysis		
Alkalinity	500.00	
Arsenic (As)	900.00	
Boron (B)	600.00	
Cadmium	400.00	
Calcium (Ca)	400.00	

	Cesium (Cs)	400.00	
	Chloride (Cl)	550.00	
	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	
	Methyl Laurate in Biodiesel	3,750.00	
	Succeeding Run	1,950.00	
	Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
	Succeeding Run	4,450.00	
	Total Acid Number in Biodiesel, Color Indicator	1,625.00	
	Total Acid Number in Biodiesel, Potentiometric	2,100.00	
	Total Glycerin in Biodiesel	2,750.00	
	Bioethanol		

Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
Succeeding Run	1,650.00	
Total Acidity (as Acetic Acid) in Bioethanol	550.00	
Crude Oil		
C12 + Components of Whole Oil / Saturate Fraction	3,950.00	
Degree API Gravity of Oil Containing Water and Sediments	590.00	
Degree API Gravity of Oil Without Sample Preparation	450.00	
Extractable Organic Matter (EOM)	5,220.00	
Fractional Distillation of Crude Oil	1,880.00	
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00	
Separation of Crude Oil / Petroleum from Water and Sediments	600.00	
Gas Condensate		
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00	
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00	
Isotope Analysis		
C13 Isotope in Gas Sample	9,950.00	
Succeeding Run	5,350.00	
N15 Isotope in Various Samples	13,700.00	New
Succeeding Run	8,700.00	New
O18 Isotope in Water Sample	10,100.00	
Succeeding Run	5,350.00	
S34 Isotope in Various Samples	13,600.00	
Succeeding Run	8,650.00	
Natural Gas and Biogas		
CO ₂ and H ₂ S Gases	1,250.00	
Hydrocarbon Gases (C1-C4)	3,500.00	
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00	
Source Rock and Cuttings		
Pyrolysis of Source Rock	2,700.00	
Sample Preparation for Dry Cuttings	450.00	
Sample preparation for wet Cuttings	540.00	
Total organic / Inorganic Carbon	3,050.00	
Tetrafluoroethane		
Tetrafluoroethane / R134a		
With Standard	3,320.00	
Without Standard	3,100.00	
Processed Fuels Section Laboratory Services	Amount	Remarks
Processed Fuels		
API Gravity/Density/Specific Gravity (Hydrometer)	600.00	
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00	New

Acidity/Alkalinity, pHe	600.00	New
Aromatics with Oxygenates, % Volume	6100	
Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New
Octane Number, RON (CFR)	10,400.00	
Oxidation Stability, Hours	4,600.00	
Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
Succeeding Run	4,400.00	New
Pour Point, °C	1,100.00	
Sediment by Extraction, % Volume	2,200.00	
Sulfur, % Mass (UVF)	2,300.00	
Sulfur, % Mass (WD-XRF)	3,000.00	New
Sulfur, % Mass (XRF)	2,100.00	

Geology Section Laboratory Services	Vapor Pressure, kPa	900.00	
	Viscosity Index	1,800.00	
	Water and Sediments, % Volume	1,100.00

<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section -coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section -rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing

B) For Agency Action (Step 1.6): <i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Laboratory Services (ERTLS) Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		38 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ;

				Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 40 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	
Volatile Combustible Matter, VCM	750.00	
Sample Preparation	650.00	
Sieve Analysis (per size)	200.00	
Total Sulfur, S	1,250.00	
Geothermal Water Analysis		
Alkalinity	500.00	
Arsenic (As)	900.00	
Boron (B)	600.00	
Cadmium	400.00	
Calcium (Ca)	400.00	

	Cesium (Cs)	400.00	
	Chloride (Cl)	550.00	
	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	
	Methyl Laurate in Biodiesel	3,750.00	
	Succeeding Run	1,950.00	
	Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
	Succeeding Run	4,450.00	
	Total Acid Number in Biodiesel, Color Indicator	1,625.00	
	Total Acid Number in Biodiesel, Potentiometric	2,100.00	
	Total Glycerin in Biodiesel	2,750.00	
	Bioethanol		

Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
Succeeding Run	1,650.00	
Total Acidity (as Acetic Acid) in Bioethanol	550.00	
Crude Oil		
C12 + Components of Whole Oil / Saturate Fraction	3,950.00	
Degree API Gravity of Oil Containing Water and Sediments	590.00	
Degree API Gravity of Oil Without Sample Preparation	450.00	
Extractable Organic Matter (EOM)	5,220.00	
Fractional Distillation of Crude Oil	1,880.00	
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00	
Separation of Crude Oil / Petroleum from Water and Sediments	600.00	
Gas Condensate		
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00	
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00	
Isotope Analysis		
C13 Isotope in Gas Sample	9,950.00	
Succeeding Run	5,350.00	
N15 Isotope in Various Samples	13,700.00	New
Succeeding Run	8,700.00	New
O18 Isotope in Water Sample	10,100.00	
Succeeding Run	5,350.00	
S34 Isotope in Various Samples	13,600.00	
Succeeding Run	8,650.00	
Natural Gas and Biogas		
CO ₂ and H ₂ S Gases	1,250.00	
Hydrocarbon Gases (C1-C4)	3,500.00	
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00	
Source Rock and Cuttings		
Pyrolysis of Source Rock	2,700.00	
Sample Preparation for Dry Cuttings	450.00	
Sample preparation for wet Cuttings	540.00	
Total organic / Inorganic Carbon	3,050.00	
Tetrafluoroethane		
Tetrafluoroethane / R134a		
With Standard	3,320.00	
Without Standard	3,100.00	
Processed Fuels Section Laboratory Services	Amount	Remarks
Processed Fuels		
API Gravity/Density/Specific Gravity (Hydrometer)	600.00	
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00	New

Acidity/Alkalinity, pHe	600.00	New
Aromatics with Oxygenates, % Volume	6100	
Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New
Octane Number, RON (CFR)	10,400.00	
Oxidation Stability, Hours	4,600.00	
Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
Succeeding Run	4,400.00	New
Pour Point, °C	1,100.00	
Sediment by Extraction, % Volume	2,200.00	
Sulfur, % Mass (UVF)	2,300.00	
Sulfur, % Mass (WD-XRF)	3,000.00	New
Sulfur, % Mass (XRF)	2,100.00	

Geology Section Laboratory Services	Vapor Pressure, kPa	900.00	
	Viscosity Index	1,800.00	
	Water and Sediments, % Volume	1,100.00	
	Water by Distillation, % Volume	1,000.00	
	Water by Karl Fischer, % Volume - Volumetric	1,300.00	
	Water by Karl Fischer, % Volume - Coulometric	3,300.00	New
	Wear Metals/Trace Metals, % Volume (per Metal)	800.00	
	Amount		Remarks
	Processing/Sample Preparation		
	Coal - Impregnated Polished Section (Briquette)	1,700.00	
	Coal - Polished Section (Whole Sample)	950.00	
	Drying of Ditch Cutting Samples (per Box)	600.00	
	Impregnated Polished Thin Section (Opaque Minerals)	1,700.00	
	Impregnated Polished Thin Section	1,500.00	
	Impregnated Polished Thin Section with Blue Dye	1,800.00	
	Normal Thin Section	1,200.00	
	Plain Slabbing/Plain Cutting	300.00	
	Polished Thin Section (for Opaque Minerals)	1,500.00	
	Polished Slab (Max Dimension 3x2x1 inches)	400.00	
	Smear Slide (Calcareous Nanno Fossils)	400.00	
	Staining using Alizarin Red (1-5 Sample/s)	100.00	
	Washed Residue (Foraminifera)	400.00	
	XRD-Extraction and Air Drying for Oriented Clay	500.00	New
	XRD-Glycol Treatment for Oriented Clay Sample	300.00	New
	XRD-Heat Treatment at 400°C for Oriented Clay	350.00	New
	XRD-Heat Treatment at 500°C for Oriented Clay	350.00	New
	XRD-Powdering for Random Sample	250.00	New
Other Services Laboratory Services	Analysis		
	Coal - Vitrinite Reflectance measurement	3,500.00	New
	Coal - Maceral Identification	4,000.00	New
	Megascopic/Hand Specimen Rock Identification	500.00	
	Micropaleontological Analysis of Rock Sample (Foraminifera)	1,900.00	
	Micropaleontological Analysis of Rock Sample (Nanno Fossil)	1,500.00	
	Petrographic Analysis of Rock Sample	1,500.00	
	X-ray Diffraction Analysis per Scan	2,000.00	New
	X-ray Diffraction, Interpretation	1,500.00	New
	Amount		Remarks

Biostratigraphic Report of Well	
First 7,000 feet / 2,133 meters)	48,000.00
(excluding Sample Preparation and Analysis)	
For Succeeding 1,000 ft or a fraction thereof; 10% of computed cost	4,800.00
Photomicrography of Fossils (1-5 Samples, final shot/s)	400.00
Photomicrography of Rocks (1-5 Samples, final shot/s)	500.00

CONDUCT OF SAMPLE PREPARATION / TESTING / ANALYSIS^a

Number of Samples

Processed Fuels Section

PNS Test for Automotive Diesel Oil^b 35-39

PNS Test for B100^b 22-24

PNS Test for E100^b 41-45

PNS Test for Fuel Oil (Industrial)^b 27-30

PNS Test for Gasoline^b 22-24

PNS Test for Kerosene 41-45

Non-PNS Test for Diesel^b 41-45

Non-PNS Test for Gasoline^b 41-45

Other Samples e.g. Pyrolysis Oil and Biofuel from other feedstocks 27-30

Geothermal-Coal Section

Coal and Other Related Sample/s

Coal Sample/s With Sample Preparation

Proximate Analysis 52-60

Proximate Analysis, Heating Value and Sulfur Analysis 52-60

-Including Residual Moisture, Heating Value and Sulfur Only

Proximate Analysis, Ultimate Analysis and Heating Value Determination 52-60

Ultimate Analysis (CHNAS) 52-60

Coal Sample/s Without Sample Preparation

Proximate Analysis 61-69

Proximate Analysis, Heating Value and Sulfur Analysis 61-69

-Including Residual Moisture, Heating Value and Sulfur Only

Proximate Analysis, Heating Value and Ultimate Analysis 58-66

Ultimate Analysis 58-66

Biomass Sample/s Without Sample Preparation

Proximate Analysis 26-29

Proximate Analysis and Heating Value 26-29

-Including Residual Moisture and Heating Value Only

Residual Moisture, Volatile Combustible Matter and Heating Value 61-69

Carbon, Hydrogen and Nitrogen 81-92

Geothermal Water Samples

Complete Ion Analysis 31-35

Oil and Gas Section

Analysis of Crude Oil 16-17

Analysis of Natural Gas / Biogas 66-75

Analysis of Stable Isotope 16-17

PNS Test for B100: GC Analysis 16-17

PNS Test for E100: GC Analysis 26-28

Analysis of Liquefied Petroleum Gas 16-17

Geology Section

Micropaleontological / Petrographic / XRD / Organic Petrographic Analysis 14-15

Drying of ditch cutting samples 181-210

Remarks:

a. Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.

b. ISO 9001:2015 certified processes

8. ERTLS-GRFTLD01-07 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - FORTY-FIVE (45) WORKING DAYS

ISO 9001:2015 Certified

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client

<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.				
E. Oil and Gas Sample				
E.1. Oil and Gas Sample (Sample: 1 liter / kilogram)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
F. LPG / Natural Gas				
F.1. LPG / Natural Gas (Sample: 60 psi)			Applicant / Client	
<i>Remarks:</i> Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses. Sample size/weight depends on the test parameters requested.				
G. Crude Oil				
G.1. Crude Oil (Sample: 500 milliliters)			Applicant / Client	
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section -coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section -rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing

B) For Agency Action (Step 1.6): <i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Laboratory Services (ERTLS) Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		43 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ;

				Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 45 working day/s
Total Processing Fee:	Total Standard Fee: None

Geothermal-Coal Section

Coal and Other Related Sample/s

Coal Sample/s With Sample Preparation

Proximate Analysis 61-69

Proximate Analysis, Heating Value and Sulfur Analysis 61-69

-Including Residual Moisture, Heating Value and Sulfur Only

Proximate Analysis, Ultimate Analysis and Heating Value Determination 61-69

Ultimate Analysis (CHNAS) 61-69

Coal Sample/s Without Sample Preparation

Proximate Analysis 70-78

Proximate Analysis, Heating Value and Sulfur Analysis 70-78

-Including Residual Moisture, Heating Value and Sulfur Only

Proximate Analysis, Heating Value and Ultimate Analysis 67-75

Ultimate Analysis 67-75

Biomass Sample/s Without Sample Preparation

Proximate Analysis 30-33

Proximate Analysis and Heating Value 30-33

-Including Residual Moisture and Heating Value Only

Residual Moisture, Volatile Combustible Matter and Heating Value 70-78

Carbon, Hydrogen and Nitrogen 93-104

Geothermal Water Samples

Complete Ion Analysis 36-40

Oil and Gas Section

Analysis of Crude Oil 18-19

Analysis of Natural Gas / Biogas 76-85

Analysis of Stable Isotope 18-19

PNS Test for B100: GC Analysis 18-19

PNS Test for E100: GC Analysis 29-31

Analysis of Liquefied Petroleum Gas 18-19

Geology Section

Micropaleontological / Petrographic / XRD / Organic Petrographic Analysis 16-17

Drying of ditch cutting samples 211-240

Remarks:

a. Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.

b. ISO 9001:2015 certified processes

9. ERTLS-GRFTLD01-08 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - FIFTY (50) WORKING DAYS

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client
<i>Remarks:</i>		

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

E. Oil and Gas Sample

E.1. Oil and Gas Sample
(Sample: 1 liter / kilogram)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

F. LPG / Natural Gas

F.1. LPG / Natural Gas
(Sample: 60 psi)

Applicant / Client

Remarks:

Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses.

Sample size/weight depends on the test parameters requested.

G. Crude Oil

G.1. Crude Oil
(Sample: 500 milliliters)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section - coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section - rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas B) For Agency Action (Step 1.6):	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing Laboratory Services (ERTLS)

<i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		48 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and

				Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 50 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	
Volatile Combustible Matter, VCM	750.00	
Sample Preparation	650.00	
Sieve Analysis (per size)	200.00	
Total Sulfur, S	1,250.00	
Geothermal Water Analysis		
Alkalinity	500.00

10. ERTLS-GRFTLD01-09 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - FIFTY-FIVE (55) WORKING DAYS

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client
<i>Remarks:</i>		

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

E. Oil and Gas Sample

E.1. Oil and Gas Sample
(Sample: 1 liter / kilogram)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

F. LPG / Natural Gas

F.1. LPG / Natural Gas
(Sample: 60 psi)

Applicant / Client

Remarks:

Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses.

Sample size/weight depends on the test parameters requested.

G. Crude Oil

G.1. Crude Oil
(Sample: 500 milliliters)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section - coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section - rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas B) For Agency Action (Step 1.6):	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing Laboratory Services (ERTLS)

<i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		53 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and

				Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 55 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	
Volatile Combustible Matter, VCM	750.00	
Sample Preparation	650.00	
Sieve Analysis (per size)	200.00	
Total Sulfur, S	1,250.00	
Geothermal Water Analysis		
Alkalinity	500.00	
Arsenic (As)	900.00	
Boron (B)	600.00	
Cadmium	400.00	
Calcium (Ca)	400.00	
Cesium (Cs)	400.00	
Chloride (Cl)	550.00	

	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	
	Methyl Laurate in Biodiesel	3,750.00	
	Succeeding Run	1,950.00	
	Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
	Succeeding Run	4,450.00	
	Total Acid Number in Biodiesel, Color Indicator	1,625.00	
	Total Acid Number in Biodiesel, Potentiometric	2,100.00	
	Total Glycerin in Biodiesel	2,750.00	
	Bioethanol		
	Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
	Succeeding Run	1,650.00	

Total Acidity (as Acetic Acid) in Bioethanol	550.00		
Crude Oil			
C12 + Components of Whole Oil / Saturate Fraction	3,950.00		
Degree API Gravity of Oil Containing Water and Sediments	590.00		
Degree API Gravity of Oil Without Sample Preparation	450.00		
Extractable Organic Matter (EOM)	5,220.00		
Fractional Distillation of Crude Oil	1,880.00		
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00		
Separation of Crude Oil / Petroleum from Water and Sediments	600.00		
Gas Condensate			
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00		
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00		
Isotope Analysis			
C13 Isotope in Gas Sample	9,950.00		
Succeeding Run	5,350.00		
N15 Isotope in Various Samples	13,700.00		New
Succeeding Run	8,700.00		New
O18 Isotope in Water Sample	10,100.00		
Succeeding Run	5,350.00		
S34 Isotope in Various Samples	13,600.00		
Succeeding Run	8,650.00		
Natural Gas and Biogas			
CO ₂ and H ₂ S Gases	1,250.00		
Hydrocarbon Gases (C1-C4)	3,500.00		
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00		
Source Rock and Cuttings			
Pyrolysis of Source Rock	2,700.00		
Sample Preparation for Dry Cuttings	450.00		
Sample preparation for wet Cuttings	540.00		
Total organic / Inorganic Carbon	3,050.00		
Tetrafluoroethane			
Tetrafluoroethane / R134a			
With Standard	3,320.00		
Without Standard	3,100.00		
Processed Fuels Section Laboratory Services	Amount		Remarks
Processed Fuels			
API Gravity/Density/Specific Gravity (Hydrometer)	600.00		
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00		New
Acidity/Alkalinity, pH	600.00		New
Aromatics with Oxygenates, % Volume	6100		

Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New
Octane Number, RON (CFR)	10,400.00	
Oxidation Stability, Hours	4,600.00	
Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
Succeeding Run	4,400.00	New
Pour Point, °C	1,100.00	
Sediment by Extraction, % Volume	2,200.00	
Sulfur, % Mass (UVF)	2,300.00	
Sulfur, % Mass (WD-XRF)	3,000.00	New
Sulfur, % Mass (XRF)	2,100.00	
Vapor Pressure, kPa	900.00	
Viscosity Index	1,800.00	
Water and Sediments, %	1,100.00

Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		58 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and

				Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 60 working day/s
Total Processing Fee:	Total Standard Fee: None
	See other fees below

Formula / Schedule of Fees

• Laboratory Service Fee

Geothermal-Coal Section Laboratory Services	Amount	Remarks
Coal		
Calorific Value, CV (Coal)	1,500.00	
Carbon, Hydrogen and Nitrogen, CHN (Coal)	3,650.00	
Carbon, Hydrogen and Nitrogen, CHN (Oil)	4,950.00	
Hardgrove Grindability Index, HGI	1,200.00	
Proximate Analysis	2,000.00	
Residual Moisture, RM	400.00	
Ash, A	850.00	
Volatile Combustible Matter, VCM	750.00	
Sample Preparation	650.00	
Sieve Analysis (per size)	200.00	
Total Sulfur, S	1,250.00	
Geothermal Water Analysis		
Alkalinity	500.00	
Arsenic (As)	900.00	
Boron (B)	600.00	
Cadmium	400.00	
Calcium (Ca)	400.00	
Cesium (Cs)	400.00	
Chloride (Cl)	550.00	

	Chromium (Hexavalent)	450.00	
	Copper (Cu)	400.00	
	Iodine (I)	1,700.00	
	Iron (Fe)	400.00	
	Lead (Pb)	400.00	
	Lithium (Li)	400.00	
	Magnesium (Mg)	400.00	
	Manganese (Mn)	400.00	
	Mercury (Hg)	1,500.00	
	Nickel (Ni)	400.00	
	pH	350.00	
	Potassium (K)	450.00	
	Rubidium (Rb)	400.00	
	Silica (SiO ₂)	700.00	
	Silver (Ag)	400.00	
	Sodium (Na)	400.00	
	Specific Conductivity	250.00	
	Sulfate (SO ₄)	700.00	
	Total Dissolved Solids	250.00	
	Total Suspended Solids	450.00	
	Zinc (Zn)	400.00	
Oil and Gas Section Laboratory Services	Amount		Remarks
	Oil and Gas		
	Automotive LPG		
	Copper Strip Corrosion	2,850.00	New
	Density of LPG	2,250.00	New
	Gauge Vapor Pressure of LPG	4,600.00	New
	Hydrogen Sulfide in LPG	1,500.00	New
	LP Gases and Propene Concentrates by GC	8,250.00	New
	Residue and Volatility	2,000.00	New
	Sulfur in LPG	3,850.00	New
	Biodiesel / CME		
	Fatty Acid Methyl Esters (FAME) in Biodiesel	4,200.00	
	Succeeding Run	2,500.00	
	FAME and Methyl Laurate (C12) in Biodiesel	5,800.00	
	Succeeding Run	3,380.00	
	Free Glycerin in Biodiesel	1,250.00	
	Linolenic Acid in Biodiesel	4,320.00	
	Succeeding Run	2,100.00	
	Methanol in Biodiesel	3,350.00	
	Succeeding Run	2,150.00	
	Methyl Laurate in Biodiesel	3,750.00	
	Succeeding Run	1,950.00	
	Mono, Di, tri, FG and TG in Biodiesel	7,500.00	
	Succeeding Run	4,450.00	
	Total Acid Number in Biodiesel, Color Indicator	1,625.00	
	Total Acid Number in Biodiesel, Potentiometric	2,100.00	
	Total Glycerin in Biodiesel	2,750.00	
	Bioethanol		
	Ethanol and Methanol Purity in Denatured Fuel Ethanol	3,200.00	
	Succeeding Run	1,650.00	

Total Acidity (as Acetic Acid) in Bioethanol	550.00		
Crude Oil			
C12 + Components of Whole Oil / Saturate Fraction	3,950.00		
Degree API Gravity of Oil Containing Water and Sediments	590.00		
Degree API Gravity of Oil Without Sample Preparation	450.00		
Extractable Organic Matter (EOM)	5,220.00		
Fractional Distillation of Crude Oil	1,880.00		
Liquid Chromatographic Separation of EOM / Whole Oil into Saturates, Aromatics and NSO	4,050.00		
Separation of Crude Oil / Petroleum from Water and Sediments	600.00		
Gas Condensate			
Carbon Dioxide (CO ₂) in Gas Condensate	1,400.00		
Hydrogen Sulfide (H ₂ S) in Gas Condensate	1,560.00		
Isotope Analysis			
C13 Isotope in Gas Sample	9,950.00		
Succeeding Run	5,350.00		
N15 Isotope in Various Samples	13,700.00		New
Succeeding Run	8,700.00		New
O18 Isotope in Water Sample	10,100.00		
Succeeding Run	5,350.00		
S34 Isotope in Various Samples	13,600.00		
Succeeding Run	8,650.00		
Natural Gas and Biogas			
CO ₂ and H ₂ S Gases	1,250.00		
Hydrocarbon Gases (C1-C4)	3,500.00		
Inorganic gases Plus Methane (N ₂ , H ₂ , Ar, O ₂ , He, C1)	3,350.00		
Source Rock and Cuttings			
Pyrolysis of Source Rock	2,700.00		
Sample Preparation for Dry Cuttings	450.00		
Sample preparation for wet Cuttings	540.00		
Total organic / Inorganic Carbon	3,050.00		
Tetrafluoroethane			
Tetrafluoroethane / R134a			
With Standard	3,320.00		
Without Standard	3,100.00		
Processed Fuels Section Laboratory Services	Amount		Remarks
Processed Fuels			
API Gravity/Density/Specific Gravity (Hydrometer)	600.00		
Acid/Base/Acetic/Iodine/Chloride/Saponification	2,700.00		New
Acidity/Alkalinity, pH	600.00		New
Aromatics with Oxygenates, % Volume	6100		

Aromatics, % Volume	4,600.00	
Ash (Sulfated), % Mass	1,900.00	
Ash, % Mass	1,900.00	
Carbon Residue (Conradson), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Carbon Residue (MCRT), % Mass	1,100.00	
Carbon Residue 10% Distillation Residue, % Mass	2,600.00	
Cetane Number	10,600.00	
Cetane Number, Calculated	2,300.00	
Cloud Point, °C	1,100.00	
Color, ASTM (Automated)	950.00	New
Color, ASTM (Manual)	600.00	
Copper Corrosion Test	2,400.00	
Density/Specific Gravity (Densitometer)	750.00	
Diesel Analyzer - Density/FAME/Cetane Number	1,100.00	
Distillation Characteristics, °C	1,900.00	
Distillation Temperature (AET), °C	2,800.00	
Electrical Conductivity, uS/m	650.00	New
Existent Gum, mg/100mL	3,200.00	New
FAME and Methyl Laurate, % Volume - GC	7,300.00	New
Succeeding Run	4,600.00	New
FAME (Fatty Acid Methyl Ester), vol % (FTIR)	1,400.00	
Flash Point (COC), °C	1,400.00	
Flash Point (PM), °C	1,000.00	
Gasoline Analyzer	1,000.00	
Group I & II Metals and Phosphorous, ppm	7,500.00	New
Hydrocarbon (Benzene & Aromatics, % Vol)	6,900.00	New
Succeeding Run	4,400.00	New
Insolubles, % Mass		
Pentane	1,700.00	
Toluene	1,800.00	
Kinematic Viscosity, mm ² /s	1,100.00	
Lead in Gasoline, g/L (XRF)	2,100.00	
Lubricity, Micron	5,900.00	New
Octane Number, RON (CFR)	10,400.00	
Oxidation Stability, Hours	4,600.00	
Oxygenates (Ethanol and Methanol), % vol - GC	6,900.00	New
Succeeding Run	4,400.00	New
Pour Point, °C	1,100.00	
Sediment by Extraction, % Volume	2,200.00	
Sulfur, % Mass (UVF)	2,300.00	
Sulfur, % Mass (WD-XRF)	3,000.00	New
Sulfur, % Mass (XRF)	2,100.00	
Vapor Pressure, kPa	900.00	
Viscosity Index	1,800.00	
Water and Sediments, %	1,100.00	

Geology Section Laboratory Services	Volume		
	Water by Distillation, % Volume	1,000.00	
	Water by Karl Fischer, %	1,300.00	
	Volume - Volumetric		
	Water by Karl Fischer, %	3,300.00	New
	Volume - Coulometric		
	Wear Metals/Trace Metals, %	800.00	
	Volume (per Metal)		
	Amount		Remarks
	Processing/Sample Preparation		
	Coal - Impregnated Polished Section (Briquette)	1,700.00	
	Coal - Polished Section (Whole Sample)	950.00	
	Drying of Ditch Cutting Samples (per Box)	600.00	
	Impregnated Polished Thin Section (Opaque Minerals)	1,700.00	
	Impregnated Polished Thin Section	1,500.00	
	Impregnated Polished Thin Section with Blue Dye	1,800.00	
	Normal Thin Section	1,200.00	
	Plain Slabbing/Plain Cutting	300.00	
	Polished Thin Section (for Opaque Minerals)	1,500.00	
	Polished Slab (Max Dimension 3x2x1 inches)	400.00	
	Smear Slide (Calcareous Nanno Fossils)	400.00	
	Staining using Alizarin Red (1-5 Sample/s)	100.00	
	Washed Residue (Foraminifera)	400.00	
	XRD-Extraction and Air Drying for Oriented Clay	500.00	New
	XRD-Glycol Treatment for Oriented Clay Sample	300.00	New
	XRD-Heat Treatment at 400°C for Oriented Clay	350.00	New
	XRD-Heat Treatment at 500°C for Oriented Clay	350.00	New
	XRD-Powdering for Random Sample	250.00	New
	Analysis		
	Coal - Vitrinite Reflectance measurement	3,500.00	New
	Coal - Maceral Identification	4,000.00	New
	Megascopic/Hand Specimen Rock Identification	500.00	
	Micropaleontological Analysis of Rock Sample (Foraminifera)	1,900.00	
	Micropaleontological Analysis of Rock Sample (Nanno Fossil)	1,500.00	
	Petrographic Analysis of Rock Sample	1,500.00	
	X-ray Diffraction Analysis per Scan	2,000.00	New
	X-ray Diffraction, Interpretation	1,500.00	New
Other Services Laboratory Services	Amount		Remarks
	Biostratigraphic Report of Well		
	First 7,000 feet / 2,133 meters)	48,000.00	

(excluding Sample Preparation and Analysis)

For Succeeding 1,000 ft or a fraction thereof; 10% of computed cost 4,800.00

Photomicrography of Fossils (1-5 Samples, final shot/s) 400.00

Photomicrography of Rocks (1-5 Samples, final shot/s) 500.00

CONDUCT OF
SAMPLE PREPARATION /
TESTING / ANALYSIS

Geology Section

Micropaleontological / 22-23

Petrographic / XRD / Organic
Petrographic Analysis

Drying of ditch cutting samples 301-330

Remarks:

Upon the occurrence of any force majeure event, laboratory shall promptly inform the customer specifying the cause of delay of analysis of samples in accordance with GRFTL Communication Plan.

12. ERTLS-GRFTLD01-11 ISSUANCE OF CHEMICAL / GEOLOGICAL LABORATORY TEST REPORT - SIXTY-FIVE (65) WORKING DAYS

Testing of upstream and downstream petroleum, coal, and renewable energy resources to determine compliance with the Philippine National Standard (PNS).

Office or Division:	Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen)	
Who may avail:	Academe, Researchers, Importers, Manufacturers, Private Laboratories, Public	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Request for Laboratory Services 1 – External Form (GRFTL-SF-1) (1) Original Copy		Department of Energy - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD)
2. For students: Endorsement letter from School Head to avail student discount (1) Original Copy		Applicant / Client
For Situational Requirement		
A. Coal		
A.1. Coal with sample preparation (Sample: At least 1 kilogram)		Applicant / Client
<i>Remarks:</i> Acceptable samples for a) Sample Preparation: samples w/o oil, grease, and plastics b) Analysis: samples w/o plastics		
A.2. Coal without sample preparation (Sample: 100 grams)		Applicant / Client
B. Geothermal Water		
B.1. Geothermal Water (Sample: 1.5 - 2 Liters)		Applicant / Client
C. Petroleum Products and Biofuels		
C.1. Petroleum Products and Biofuels (Sample: 1 Liter)		Applicant / Client
<i>Remarks:</i> Sample size/weight depends on the test parameters requested.		
D. Geological Samples		
Sub Situational Requirement/s		
D.a. Whole Rock		
D.a.1. Whole Rock Sample (Sample: Minimum of 3x3 and maximum of 6x6 inches)		Applicant / Client
<i>Remarks:</i> Acceptance of service request is subject to the type/quality/condition of sample/s submitted.		
D.b. Unconsolidated Sample		
D.b.1. Unconsolidated Sample (Sample: 50 grams)		Applicant / Client
<i>Remarks:</i>		

Acceptance of service request is subject to the type/quality/condition of sample/s submitted.

E. Oil and Gas Sample

E.1. Oil and Gas Sample
(Sample: 1 liter / kilogram)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

F. LPG / Natural Gas

F.1. LPG / Natural Gas
(Sample: 60 psi)

Applicant / Client

Remarks:

Samples must adhere to ASTM D6849 requirement especially for composition and vapor pressure analyses.

Sample size/weight depends on the test parameters requested.

G. Crude Oil

G.1. Crude Oil
(Sample: 500 milliliters)

Applicant / Client

Remarks:

Sample size/weight depends on the test parameters requested.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Submission of samples and Request for Laboratory Services form (GRFTL-SF-1). Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director (ERTLS-OD) Notes/Instruction: A) The Technical Staff of the concerned section of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) may assist the ERTLS-OD staff in evaluating samples - Geothermal Coal Section - coal and geothermal water samples - Processed Fuels Section - petroleum and biofuel samples - Geology Section - rock samples - Oil and Gas Section - geothermal gas, biogas or synthesis gas B) For Agency Action (Step 1.6):	1.1. Examines the nature/ size/ weight/ volume of sample if acceptable for the required analysis.	None	15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.2. Reviews / checks the correctness of the filled-out request form.		15 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.3. Creates Request for Laboratory Services Billing		20 minute/s	- Executive Assistant I; ERTLS, Office of the Director - Administrative Assistant I; ERTLS, Office of the Director
	1.4. Approves the Laboratory Services Billing Statement		10 minute/s	Director III; Energy Research and Testing Laboratory Services (ERTLS)

<i>The Collection Monitoring System (COMS) will automatically cancel the Order of Payment (OOP) not paid within ten (10) calendar days.</i>	1.5. Receives notification that a billing statement has been approved.		15 minute/s	Accounting Staff; Accounting Division (AD)
	1.6. Creates and approves Order of Payment (OOP)		15 minute/s	- Data Encoder; Accounting Division (AD) - Division Chief; Accounting Division (AD)
2. Payment of Laboratory Service Fee Location: Treasury Division Ground Floor, Department of Energy Annex Building Notes/Instruction: The client will proceed with the next step once fees are paid.	2. Issues the Official Receipt for testing fee	Formula Fees Breakdown: Laboratory Service Fee	20 minute/s	Collection Officer; Treasury Division (TD)
3. Submission of one (1) photocopy of the Official Receipt Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	3.1. Consolidates photocopy of the Official Receipt	None	10 minute/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.2. Transmits GRFTL SF-1 to the Office of the Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist		2 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director
	3.3. Issues Laboratory Work Order (GRFTL SF-3) and dispatches GRFTL-SF-3 to the assigned Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Section		4 hour/s	Chief Science Research Specialist / Administrative Aide VI; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	3.4. Analysis of Sample: a) Conducts Sample Preparation / Testing / Analysis (Refer to the "Conduct of Sample Preparation/ Testing/ Analysis" table b) Prepares Results of Analysis c) Reviews and Endorses Transmittal Letter and Test Report to the Geoscientific Research and Fuel Testing Laboratory Division Chief Science Research Specialist		63 working day/s	Supervising Science Research Specialist / Senior Science Research Specialist / Science Research Specialist II / Science Research Specialist I / Science Research Analyst / Laboratory Technician II / Laboratory Technician I ; Geoscientific Research and

				Fuel Testing Laboratory Division (GRFTLD)
4. Pick up of Test Report and submission of the Energy Research and Testing Laboratory Services (ERTLS) Customer Satisfaction Measurement Form [Customer Rating – Release of Test Report (GRFTL-SF-5)] Location: 4th Building - Energy Research and Testing Laboratory Services - Office of the Director	4.1. Endorses Transmittal Letter and Test Report to the Energy Research and Testing Laboratory Services (ERTLS) Director and affixes initial of supervisor of the concerned section and Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD) Chief Science Research Specialist and signature of the ERTLS Director to the Transmittal Letter	None	4 hour/s	- Director III ; Energy Research and Testing Laboratory Services (ERTLS) - Chief Science Research Specialist / Supervising Science Research Specialist; Geoscientific Research and Fuel Testing Laboratory Division (GRFTLD)
	4.2. Releases Test Report and consolidates copy of Test Report acknowledged by the customer and filled-out Customer Satisfaction Measurement Form		4 hour/s	Executive Assistant I / Administrative Assistant I; ERTLS, Office of the Director

General Remarks

Note: Please remember to keep your Official Receipt after paying the Laboratory Service Fee.

Total Processing Time:	Working Days: 65 working day/s
Total Processing Fee:	Total Standard Fee: None

External Services

1. ERTLS-LATD01 Inspection of Generic Models / Exempted Products for Air Conditioners (for 1 to 5 Samples) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Inspection of generic models / exempted products are services related to Philippine Energy Labeling Program (PELP) rendered by LATL.

Office or Division:	Lighting and Appliance Testing Division (LATD)			
Classification:	Highly Technical			
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)			
Who may avail:	Private companies, industries, academe, government institutions, private citizens.			
Operating Hours:	7:00 AM - 4:00 PM			
CHECKLIST OF REQUIREMENTS			WHERE TO SECURE	
For Standard Requirement				
1. Working electronic mail account (Sample: 1 email account)			Applicant / Client	
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.				
2. Electronic Signature (Sample: 1 Electronic Signature)			Applicant / Client	
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).				
3. Photographs of air conditioner/s to be inspected (Sample: 4 Photographs)			Applicant / Client	
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the air conditioner to be inspected 2. Front view of the air conditioner to be inspected 3. Name plate rating of the air conditioner to be inspected 4. Serial number of the air conditioner to be inspected				
4. Air conditioner generic model (Sample: 1-5 Sample/s)			Applicant / Client	
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the sample during inspection. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of inspection sample/instrument submitted when found to be faulty/defective during inspection. The item will be rejected and returned to the customer for replacement.				
CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research

1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services-Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of inspection requests. Please refer to "ERTLS-LATD15 Inspection of Generic Models/Exempted Products for Airconditioners (for 1 to 5 Samples) through Manual Processing".				Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request for inspection by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client must upload photo/media of inspection sample/s. 2. If Energy Research and Testing Laboratory Services-Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of inspection requests. Please refer to "ERTLS-LATD15 Inspection of Generic Models/Exempted Products for Air Conditioners for (1 to 5 Samples) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

If Energy Research and Testing Laboratory Services-Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of inspection requests. Please refer to "ERTLS-LATD18-01 Inspection of Generic Models/Exempted Products for Television Sets (for 6 to 10 Samples) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing	3.1. Receive the request for Order of Payment from client through Energy Research and	None	26 minute/s	Laboratory Technician II / Science

Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	Testing Laboratory Services - Online Services Management System			Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement through Collection Monitoring System		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)

https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the inspection sample to arrive at Appliance and Equipment Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send the inspection sample/s to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section and sign inspection forms to be prepared by Appliance and Equipment Section. Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: - Corresponding fees should have been paid already in step 4. - During the schedule of inspection, client may be physically available to sign and conforme the inspection form/s or if the client is not physically available, he may receive and sign the inspection form/s through Energy Research and Testing Laboratory Services - Online Services Management System. - The client is responsible for logistic arrangements and fees. - If client opts to conduct inspection outside Department of Energy, the client will bear all travel expenses. - If generic model is the same as its base model, the client will sign and conforme the inspection forms. If found not generic to the base model, Lighting and Appliance Testing Division - Appliance and Equipment Section staff will inform the client and sign and conforme the form. - If the sample is requested for inspection of exempted product the client will sign and conforme the inspection forms. If found not to be exempted, Lighting and Appliance Testing Division - Appliance and Equipment Section staff informs the client and	5.1. Receive the inspection sample once delivered to Lighting and Appliance Testing Division - Appliance and Equipment Section. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate the start of inspection and the expected end date of the service.	None	4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Conduct inspection by accomplishing inspection form/s and takes photographs of the sample/s being inspected		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Compare generic model to its base model by conducting physical inspection to the actual base model brought by the client. If the sample is requested for inspection of exempted products, Appliance and Equipment Section verify the sample if it is exempted or not.		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Finalize the inspection report. Either generic model is the same as its base model or		4 hour/s	Laboratory Technician II / Science

signs and conforms the inspection form. 7. Wait for the completion of service. 8. Monitor the request through Energy Research and Testing Laboratory Services - Online Service Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Inspection Report. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 9. Fill-out the customer satisfaction form and download the inspection report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System then claim/retrieve the test sample/s at Lighting and Appliance Testing Division - Appliance and Equipment Section	not, Appliance and Equipment section ensures that the client signed and conformed the inspection form. The same applies with exempted products		Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.5. Prepare the individual inspection report, summary matrix of individual inspection report, and transmittal letter.	6 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and approve the individual inspection report, summary matrix of individual inspection report, and transmittal letter	6 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.7. Review and sign the transmittal letter.	6 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.8. Upload the inspection report/s and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the inspection report/s and transmittal letter are ready for download	6 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;

				Lighting and Appliance Testing Division (LATD)						
General Remarks After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

9. ERTLS-LATD05 Calibration of Electrical Instruments for External Customers (for 1 to 5 Calibration Points per Parameter - AC/DC Voltage, AC/DC Current and Resistance) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Calibration work is conducted to accommodate external customers. Services offered are calibration of 1) Digital Power Meter up to 30KW; 2) Digital Multimeter up to 1000V AC/DC, 30A AC/DC (applied scope of accreditation is only up to 10A AC/DC) and Resistance up to 10GΩ (applied scope of accreditation is only up to 100MΩ); 3) AC/DC Voltmeters up to 1000V AC/DC; 4) AC/DC Ammeters up to 30A AC/DC (applied scope of accreditation is only up to 10A AC/DC); 5) Ohmmeters up to 10GΩ (applied scope of accreditation is only up to 100MΩ); 6) Resistors up to 10GΩ and; 7) Clamp Meters up to 1000V AC/DC, 30A AC/DC and Resistance up to 10GΩ.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Private companies, industries, academe, government institutions, private citizens.
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the equipment/instrument to be calibrated (Sample: 3 photographs)	Applicant / Client
Remarks: Photographs of front view of the calibration item, photo of the terminals of the calibration item and photo of connectors/plugs of the calibration item are necessary for laboratory staff to assess if the calibration laboratory is capable to serve the requirements of the client.	
4. Working/Functional Calibration Sample (Sample: 1 Calibration Sample)	Applicant / Client
Remarks: 1. Calibration items accepted by Lighting and Appliance Testing Division are the following: Digital Power Meters (Single Phase), Digital Multimeters, AC/DC Voltmeters, AC/DC Ammeters, Ohmmeters, Resistors and Clamp Meters 2. Lighting and Appliance Testing Division shall accept one calibration item per service request. 3. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the calibration sample during calibration. 4. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 5. Lighting and Appliance Testing Division will not undertake any repair or maintenance of calibration samples when found to be faulty/defective during inspection/calibration. The calibration sample will be rejected and returned to the customer for replacement. 6. Range of calibrations is normally up to five (5) points per parameter. Additional points shall entail additional payment. 7. Calibration sample shall be clean must be clean and in good working condition and be accompanied by its operation and/or service manual if possible. 8. If the customer does not request calibration points, Lighting and Appliance Testing Division will refer to the manual/specification of the item to be calibrated. If all these are unavailable, calibration ranges provided on the updated version of EURAMET will be used. 9. The client shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the calibration sample to process necessary documents and passes.	

10. After calibration, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples/calibration items according to the following timeframes:
- First Notice – Customer must claim the test samples/calibration items within two (2) weeks. If not claimed, a 2nd notice will be issued.
 - Second Notice – customer must claim the test samples/calibration items within one (1) week. If not claimed a 3rd notice will be issued.
 - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples/calibration items, as applicable.
11. Only calibration samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
12. Proper authorization is required to pull-out calibration sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Service Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: - Client registers to Energy Research and Testing Laboratory Services – Online Service Management System only once. - If the client is already registered, skip this step, and proceed to client step no. 2. - If Energy Research and Testing Laboratory Services-Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of calibration requests. Please refer to "ERTLS-LATD19 Calibration of Electrical Instruments for External Customers for (1 to 15 Calibration Points) through Manual Processing". - For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Service Management System. - If client brings their equipment for walk-in application, staff conducts	1.1. Client will be notified in the Energy Research and Testing Laboratory Services - Online Service Management System once the calibration certificate is ready for download.		4 hour/s	Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 6 working day/s, 4 hour/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Calibration Samples and Fees Table

Samples	Fees
Calibration of Digital Power Meter (DPM)	Php 4,900.00
Calibration of each additional point for DPM	Php 350.00
Calibration of Digital Multimeter (DMM) up to 4 ½ Digital Resolution	Php 3,250.00 (5 points per parameter)
Calibration of each additional point for DMM	Php 200.00
Calibration of AC/DC Voltmeters	Php 1,950.00
Calibration of each additional point for AC/DC Voltmeters	Php 390.00
Calibration of AC/DC Ammeters	Php 2,100.00
Calibration of each additional point for AC/DC Ammeters	Php 420.00
Calibration of Ohmmeter	Php 1,950.00

Calibration of each additional point for Ohmmeter	Php 390.00
Calibration of Resistors	Php 1,350.00
Calibration of each additional point for Resistors	Php 300.00
Calibration of Clamp Meters	Php 2,050.00
Calibration of each additional point for Clamp Meter	Php 410.00

10. ERTLS-LATD05-01 Calibration of Electrical Instruments for External Customers (for Additional Point) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Calibration work is conducted to accommodate external customers. Services offered are calibration of 1) Digital Power Meter up to 30KW; 2) Digital Multimeter up to 1000V AC/DC, 30A AC/DC (applied scope of accreditation is only up to 10A AC/DC) and Resistance up to 10GΩ (applied scope of accreditation is only up to 100MΩ); 3) AC/DC Voltmeters up to 1000V AC/DC; 4) AC/DC Ammeters up to 30A AC/DC (applied scope of accreditation is only up to 10A AC/DC); 5) Ohmmeters up to 10GΩ (applied scope of accreditation is only up to 100MΩ); 6) Resistors up to 10GΩ and; 7) Clamp Meters up to 1000V AC/DC, 30A AC/DC and Resistance up to 10GΩ

4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Possible Fees Breakdown: Calibration of Digital Power Meter (DPM) with additional 10 calibration points: PHP 8400 Calibration of Digital Multimeter (DMM) up to 4 ½ Digital Resolution with additional 10 calibration points: PHP 5250 Calibration of AC/DC Voltmeters with additional 10 calibration points: PHP 5850 Calibration of	2 hour/s	Collection Officer; Treasury Division (TD)

	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the calibration sample to arrive Calibration/Instrumentation and Control Section	AC/DC Ammeters with additional 10 calibration points: PHP 6300 Calibration of Ohmmeter with additional 10 calibration points: PHP 5850 Calibration of Resistors with additional 10 calibration points: PHP 4350 Calibration of Clamp Meters with additional 10 calibration points: PHP 6150 Formula Fees Breakdown: Calibration Samples and Fees Table	2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send calibration sample to Department of Energy - Lighting and Appliance Testing Division - Calibration/Instrumentation and Control Section Location: 3rd Floor NPTL Bldg. Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: - Corresponding fees should have been paid already in step 4 according to the type of calibration service requested. - The client is responsible for logistic arrangements and fees. - Wait for the completion of service of calibration services. - Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Calibration Certificate/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. - Fill out customer satisfaction form and download the Calibration Certificate in Energy Research and Testing Laboratory Services -	5.1. Receive the equipment for calibration and conduct functionality check	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of calibration and the expected end date of the service		2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct Calibration (Request for Additional Point)		1 working day/s, 5 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I /

Online Services Management System. 6. Claim/retrieve the calibrated equipment at Lighting Appliance Testing Division - Calibration/Instrumentation and Control Section 3rd Floor NPTL Bldg. Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Compute for measurement uncertainty	1 working day/s, 4 hour/s	Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.5. Prepare calibration certificate	1 working day/s	Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and approve calibration certificate	4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist / Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.7. Upload calibration certificate to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Service Management System	4 hour/s	Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

	once the calibration certificate is ready for download.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 6 working day/s, 5 hour/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Possible Fees				
• Calibration of Digital Power Meter (DPM) with additional 10 calibration points : 8400 • Calibration of Digital Multimeter (DMM) up to 4 ½ Digital Resolution with additional 10 calibration points : 5250 • Calibration of AC/DC Voltmeters with additional 10 calibration points : 5850 • Calibration of AC/DC Ammeters with additional 10 calibration points : 6300 • Calibration of Ohmmeter with additional 10 calibration points : 5850 • Calibration of Resistors with additional 10 calibration points : 4350 • Calibration of Clamp Meters with additional 10 calibration points : 6150				
Formula / Schedule of Fees				
• Calibration Samples and Fees Table				
Samples		Fees		
Calibration of Digital Power Meter (DPM)		Php 4,900.00		
Calibration of each additional point for DPM		Php 350.00		
Calibration of Digital Multimeter (DMM) up to 4 ½ Digital Resolution		Php 3,250.00 (5 points per parameter)		
Calibration of each additional point for DMM		Php 200.00		
Calibration of AC/DC Voltmeters		Php 1,950.00		
Calibration of each additional point for AC/DC Voltmeters		Php 390.00		
Calibration of AC/DC Ammeters		Php 2,100.00		
Calibration of each additional point for AC/DC Ammeters		Php 420.00		
Calibration of Ohmmeter		Php 1,950.00		
Calibration of each additional point for Ohmmeter		Php 390.00		
Calibration of Resistors		Php 1,350.00		
Calibration of each additional point for Resistors		Php 300.00		
Calibration of Clamp Meters		Php 2,050.00		
Calibration of each additional point for Clamp Meter		Php 410.00		

11. ERTLS-LATD06 Calibration of Temperature Instruments for External Customers (for 1 to 5 Calibration Points) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Calibration work is conducted to accommodate external customers. Services offered are calibration of 1) Platinum Resistance Thermometers (-10°C to 420°C); 2) Liquid-in-Glass Thermometers (80°C to 150°C); 3) Digital/Bi-metal Thermometers/RTD/Thermocouples (-24° to 420°C).

Office or Division:	Lighting and Appliance Testing Division (LATD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)	
Who may avail:	Private companies, industries, academe, government institutions, private citizens.	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Working electronic mail account (Sample: 1 email account)		Applicant / Client
<i>Remarks:</i> Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.		
2. Electronic Signature (Sample: 1 Electronic Signature)		Applicant / Client
<i>Remarks:</i> Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).		
3. Photographs of the equipment/instrument to be calibrated (Sample: 3 photographs)		Applicant / Client
<i>Remarks:</i> Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Photographs of front view of the calibration item 2. Photographs of the terminals of the calibration item 3. Photographs of connectors/plugs of the calibration item These photographs are necessary for laboratory staff to assess if the calibration laboratory is capable to serve the requirements of the client.		
4. Working/Functional Calibration Sample (Sample: 1 Calibration Sample)		Applicant / Client
<i>Remarks:</i> 1. Calibration items accepted by Lighting and Appliance Testing Division are the following: Platinum Resistance Thermometers (PRT), Liquid-in-Glass (LIG) Thermometers, and Digital/Bi-metal Thermometers/RTD/Thermocouples. 2. Lighting and Appliance Testing Division shall accept one calibration item per service request. 3. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the calibration sample during calibration. 4. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 5. Lighting and Appliance Testing Division will not undertake any repair or maintenance of calibration samples when found to be faulty/defective during inspection/calibration. The calibration sample will be rejected and returned to the customer for replacement. 6. Range of calibrations is normally up to five (5) points per parameter. Additional points shall entail additional payment. 7. Calibration sample shall be clean must be clean and in good working condition and be accompanied by its operation and/or service manual if possible. 8. If the customer does not request calibration points, Lighting and Appliance Testing Division will refer to the manual/specification of the item to be calibrated. If all these are unavailable, calibration ranges provided on the updated version of European Association of National Metrology Institutes will be used.		

9. The client shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the calibration sample to process necessary documents and passes.
10. After calibration, Lighting and Appliance Testing Division will issue notices to customers for claiming calibration items according to the following timeframes:
 - o First Notice – Customer must claim the calibration items within two (2) weeks. If not claimed, a 2nd notice will be issued.
 - o Second Notice – customer must claim the calibration items within one (1) week. If not claimed a 3rd notice will be issued.
 - o Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed calibration items, as applicable.
11. Only calibration samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
12. Proper authorization is required to pull-out calibration sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of calibration requests. Please refer to "ERTLS-LATD20 Calibration of Temperature Instruments for External Customers (for 1 to 5 Calibration Points) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test sample/calibration for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. If client brings their equipment for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	• Chief Science Research Specialist;

application, staff conducts functionality check of equipment for calibration. During functionality check, if the equipment is malfunctioning, not operating properly or has physical damages, Lighting and Appliance Testing Division will not process the service request and decline from calibrating the equipment.				Lighting and Appliance Testing Division (LATD)
2. Request calibration service by filling-out service request form through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of equipment to be calibrated. 2. If Energy Research and Testing Laboratory Services-Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of calibration requests. Please refer to "ERTLS-LATD20 Calibration of Temperature Instruments for External Customers (for 1 to 5 Calibration Points) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and

				Appliance Testing Division (LATD)

Possible Fees				

- **Calibration of Platinum Resistance Thermometer (PRT) with additional 10 calibration points : 14700**
- **Calibration of Liquid-in-Glass (LIG) Thermometer with additional 10 calibration points : 7650**
- **Calibration of Digital / Bi-metal Thermometer / RTD / Thermocouple with additional 10 calibration points : 5850**

Formula / Schedule of Fees

- **Calibration Samples and Fees Table**

Samples	Fees
Calibration of Platinum Resistance Thermometer (PRT)	Php 4,900.00
Calibration of each additional temperature point for PRT	Php 980.00
Calibration of Liquid-in-Glass (LIG) Thermometer	Php 1,650.00
Calibration of each additional temperature point for Liquid-in-Glass (LIG)	Php 600.00
Calibration of Digital / Bi-metal Thermometer / RTD / Thermocouple	Php 1,950.00
Calibration of each additional temperature point for Digital / Bi-metal Thermometer / RTD / Thermocouple	Php 390.00

13. ERTLS-LATD07 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Zero Ageing (For 1 Sample) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1 Sample)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Zero Ageing (For 1 Sample) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and	1.1. 100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch

10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

15. ERTLS-LATD07-02 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Initial Rating Test with 100 Hours Ageing (For 1 Sample) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)																				
Classification:	Highly Technical																				
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)																				
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders																				
Operating Hours:	7:00 AM - 4:00 PM

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-02 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Initial Rating Test with 100 Hours Ageing (For 1 Sample) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-02 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Initial Rating Test with 100 Hours Ageing (For 1 Sample) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy,	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research

Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	5 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 9 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch
33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch

40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch

Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.	None	26 minute/s 26 minute/s	- Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) - Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy,	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research

Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	6 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 10 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch
33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch

40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch

33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

17. ERTLS-LATD07-04 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps Initial Rating Test Zero Ageing (Maximum Number of Sample is 30 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)																				
Classification:	Highly Technical																				
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)																				
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders																				
Operating Hours:	7:00 AM - 4:00 PM

If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.																					

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-05 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps Initial Rating Test with 100 Hours Ageing (Maximum Number of Sample is 30 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-05 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps Initial Rating Test with 100 Hours Ageing (Maximum Number of Sample is 30 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division -	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science

Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy,	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service 5.3. Conduct the Test Request 5.4. Prepare and generate Test Report/s			Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 2 hour/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 35 working day/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 1 working day/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research

CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. 3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client	
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.		
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client	
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.		

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-08 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 2,000 Hours Lumen Maintenance Test for Fluorescent Lamps Regardless of Rated Lamp Life (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-08 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 2,000 Hours Lumen Maintenance Test for Fluorescent Lamps Regardless of Rated Lamp Life (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Client will proceed to the next step once fees are paid. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		111 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter	4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter	4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download	4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 115 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch

33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

22. ERTLS-LATD07-09 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Life Test for 6000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

23. ERTLS-LATD07-10 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Life Test for 15,000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)	
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client	
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.		
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client	
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).		
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client	
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.		
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client	
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.		

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-10 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Life Test for 15,000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration , clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-10 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Life Test for 15,000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System 2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.	None	26 minute/s 26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. LED lamps Endurance Test – Temperature Cycling Test		Php 10,800.00/ Batch		
LED lamps Endurance Test – Supply Switching Test –		Php 2,200.00/ Batch		
LED lamps Initial Rating Test (zero ageing)		Php 22,200.00/Batch		
10W-22W LED lamps Lumen Maintenance (3,750 hrs)		Php 23,050.00/Batch		
23W-32W LED lamps Lumen Maintenance (3,750 hrs)		Php 26,800.00/Batch		
33W-40W LED lamps Lumen Maintenance (3,750 hrs)		Php 29,800.00/Batch		
40W-100W LED lamps Lumen Maintenance (3,750 hrs)		Php 52,300.00/Batch		
100W-200W LED lamps Lumen Maintenance (3,750 hrs)		Php 89,800.00/Batch		

10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

25. ERTLS-LATD07-12 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Led Lamps (15,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-10 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-12 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps (15,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-12 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps (15,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Client will proceed to the next step once fees are paid. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		15 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 19 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch

33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch

The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		19 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 23 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch

33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch

CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-10 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: o First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2 nd notice will be issued. o Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3 rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-14 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps Lamps (50,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-14 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Light Emitting Diode Lamps Lamps (50,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Client will proceed to the next step once fees are paid. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		27 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client	
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.		
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client	
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).		
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client	
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.		
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client	
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.		

- *Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.*
- 7. *Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.*
- 8. *Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.*

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-16 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 2,000 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration , clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-16 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 2,000 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-17 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 3,750 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-17 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 3,750 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division -	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science

Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy,	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service 5.3. Conduct the Test Request 5.4. Prepare and generate Test Report/s			Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 2 hour/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 176 working day/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 1 working day/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research

Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

31. ERTLS-LATD07-18 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for 6,000 Burning Hours Lumen Maintenance Test for Light Emitting Diode Lamps (Maximum Number of Sample is 20 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

32. ERTLS-LATD07-19 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Electrical Measurements (For 1 Sample) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1 Sample)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-19 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Electrical Measurements (For 1 Sample) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-19 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Sphere Photometry for Electrical Measurements (For 1 Sample) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy,	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research

Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

34. ERTLS-LATD07-21 Energy Performance Testing of Energy Saving Device (Omnidirectional/Nondirectional Lighting Load using Sphere Photometer) through Energy Research and Testing Laboratory Services - Online Services Management System

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)	
Classification:	Highly Technical	
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)	
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders	
Operating Hours:	7:00 AM - 4:00 PM	
CHECKLIST OF REQUIREMENTS		WHERE TO SECURE
For Standard Requirement		
1. Working electronic mail account (Sample: 1 email account)		Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.		
2. Electronic Signature (Sample: 1 Electronic Signature)		Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).		
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)		Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.		
4. Working/Functional Light Source with Energy Saving Device (Sample: 1 Sample)		Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: o First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2 nd notice will be issued. o Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3 rd notice will be issued. o Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable. 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.		

8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-21 Energy Performance Testing of Energy Saving Device (Omnidirectional/Nondirectional Lighting Load using Sphere Photometer) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

- Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD21-21 Energy Performance Testing of Energy Saving Device (Omnidirectional/Nondirectional Lighting Load using Sphere Photometer) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

36. ERTLS-LATD08-01 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Zero Ageing (For 2 Samples) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 2 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-01 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Zero Ageing (For 2 Samples) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-01 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Zero Ageing (For 2 Samples) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through		26 minute/s	• Laboratory Technician II /

	Collection Monitoring System (COMS)			Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	• Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	• Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	• Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	2 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter	4 hour/s	• Senior Science Research Specialist / Supervising

			Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter	4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download	4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

38. ERTLS-LATD08-03 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Initial Rating Test with 100 Hours Ageing (For 2 Samples) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 2 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-03 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Initial Rating Test with 100 Hours Ageing (For 2 Samples) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-03 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Initial Rating Test with 100 Hours Ageing (For 2 Samples) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy,	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research

Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	6 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)

	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

	See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch
33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch

23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-30 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-05 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps Initial Rating Test with 100 Hours Ageing (Maximum Number of Sample is 30 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-05 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps Initial Rating Test with 100 Hours Ageing (Maximum Number of Sample is 30 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System 2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.	None	26 minute/s 26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division -	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science

Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested.			Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s).	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service.	5.3. Conduct the Test Request	35 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy,	5.4. 	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science

Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service 5.3. Conduct the Test Request 5.4. Prepare and generate Test Report/s			Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 2 hour/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 20 working day/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) 1 working day/s • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-08 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 2,000 Hours Lumen Maintenance Test for Fluorescent Lamps Regardless of Rated Lamp Life (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Client will proceed to the next step once fees are paid. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		111 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 115 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch

33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

44. ERTLS-LATD08-09 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Life Test for 6000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-09 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Life Test for 6000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-09 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Life Test for 6000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. 3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-10 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Life Test for 15,000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-10 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Life Test for 15,000 Hours Rated Lamp Life of Fluorescent Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 705 working day/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
• Test Samples and Fees Table				
Samples		Fees		
Sphere Photometry		Php 740.00		
Gonio Photometry		Php 11,600.00/ sample		
Electrical Measurement		Php 440.00/ Batch		
LED lamps Endurance Test – Temperature Cycling Test		Php 10,800.00/ Batch		
LED lamps Endurance Test – Supply Switching Test –		Php 2,200.00/ Batch		
LED lamps Initial Rating Test (zero ageing)		Php 22,200.00/Batch		
10W-22W LED lamps Lumen Maintenance (3,750 hrs)		Php 23,050.00/Batch		
23W-32W LED lamps Lumen Maintenance (3,750 hrs)		Php 26,800.00/Batch		
33W-40W LED lamps Lumen Maintenance (3,750 hrs)		Php 29,800.00/Batch		
40W-100W LED lamps Lumen Maintenance (3,750 hrs)		Php 52,300.00/Batch		
100W-200W LED lamps Lumen Maintenance (3,750 hrs)		Php 89,800.00/Batch		

10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

46. ERTLS-LATD08-11 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (8,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)																				
Classification:	Highly Technical																				
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)																				
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders																				
Operating Hours:	7:00 AM - 4:00 PM

	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 17 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch

33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

47. ERTLS-LATD08-12 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (15,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

- 8. *Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.*

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: - Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. - If the client is already registered, skip this step, and proceed to client step no. 2. - If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-12 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (15,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing". - For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. - When a client brings their sample(s) for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-12 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (15,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Client will proceed to the next step once fees are paid. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		15 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-10 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-13 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (25,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-13 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (25,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Client will proceed to the next step once fees are paid. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		19 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist

Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter	4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter	4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download	4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 23 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch
10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch

33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

49. ERTLS-LATD08-14 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (50,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-10 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-14 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (50,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-14 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps (50,000 Rated Lamp Life) Endurance Test – Supply Switching Test (Maximum Number of Sample is 10 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II /

				Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

CHECKLIST OF REQUIREMENTS	WHERE TO SECURE																				
For Standard Requirement																					
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client																				
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>																					
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client																				
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>																					
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client																				
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.																					
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-10 Sample/s)	Applicant / Client																				
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: ◦ First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. ◦ Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.																					

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-15 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps 1,000 Burning Hours in Test Chamber (Regardless of Rated Lamp Life) Endurance Test – Temperature Cycling Test (Maximum Number of Sample is 10 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System.	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-15 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Light Emitting Diode Lamps 1,000 Burning Hours in Test Chamber (Regardless of Rated Lamp Life) Endurance Test – Temperature Cycling Test (Maximum Number of Sample is 10 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location:	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I /

https://ertls-osms.doe.gov.ph/				Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction:	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting		2 hour/s	Chief Science Research Specialist; Lighting and

Client will proceed to the next step once fees are paid.	and Other Electrical Devices Section			Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System.	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service		2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request		52 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s		1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist

8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 56 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Sphere Photometry	Php 740.00
Gonio Photometry	Php 11,600.00/ sample
Electrical Measurement	Php 440.00/ Batch
LED lamps Endurance Test – Temperature Cycling Test	Php 10,800.00/ Batch
LED lamps Endurance Test – Supply Switching Test –	Php 2,200.00/ Batch
LED lamps Initial Rating Test (zero ageing)	Php 22,200.00/Batch

10W-22W LED lamps Lumen Maintenance (3,750 hrs)	Php 23,050.00/Batch
23W-32W LED lamps Lumen Maintenance (3,750 hrs)	Php 26,800.00/Batch
33W-40W LED lamps Lumen Maintenance (3,750 hrs)	Php 29,800.00/Batch
40W-100W LED lamps Lumen Maintenance (3,750 hrs)	Php 52,300.00/Batch
100W-200W LED lamps Lumen Maintenance (3,750 hrs)	Php 89,800.00/Batch
10W-22W LED lamps Lumen Maintenance (6,000 hrs)	Php 28,000.00/Batch
23W-32W LED lamps Lumen Maintenance (6,000 hrs)	Php 34,000.00/Batch
33W-40W LED lamps Lumen Maintenance (6,000 hrs)	Php 38,800.00/Batch
40W-100W LED lamps Lumen Maintenance (6,000 hrs)	Php 74,800.00/Batch
100W-200W LED lamps Lumen Maintenance (6,000 hrs)	Php 134,800.00/Batch
10W-22W LFL and CFL Life Test (1,900 hrs)	Php 11,580.00/Batch
10W-22W LFL and CFL Lumen Maintenance	Php 19,200.00/Batch
10W-22W LFL and CFL Life Test every next 1,000 hrs –	Php 2,200.00/Batch
10W-22W LFL and CFL Life Test (100 hrs)	Php 7,620.00/Batch
23W-32W LFL and CFL Life Test (100 hrs) –	Php 7,720.00/Batch
23W-32W LFL and CFL Life Test (1,900 hrs)	Php 13,480.00/Batch
23W-32W LFL and CFL Lumen Maintenance	Php 21,200.00/Batch
23W-32W LFL and CFL Life Test every next 1,000 hrs –	Php 3,200.00/Batch
33W-40W LFL and CFL Life Test (100 hrs)	Php 7,800.00/Batch
33W-40W LFL and CFL Life Test (1,900 hrs)	Php 15,000.00/Batch
33W-40W LFL and CFL Lumen Maintenance	Php 22,800.00/Batch
33W-40W LFL and CFL Life Test every next 1,000 hrs	Php 4,000.00/Batch
Other Light Sources above 40W-100W @ 100 hrs Life Test	Php 8,400.00/Batch
Other Light Sources above 40W-100W @ 1,900 hrs Life Test	Php 26,400.00/Batch
Other Light Sources above 40W-100W Lumen Maintenance	Php 34,800.00/Batch
Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

51. ERTLS-LATD08-16 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 2,000 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-16 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 2,000 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division -	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science

Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested.			Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s).	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service.	5.3. Conduct the Test Request	176 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy,	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research

Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.				Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter		4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter		4 hour/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 180 working day/s

CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: <i>Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.</i>	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- *Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.*
- 7. *Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.*
- 8. *Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.*

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-17 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 3,750 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration , clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-17 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 3,750 Burning Hours Light Emitting Diode Lamps Lumen Maintenance (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division -	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science

Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1-20 Sample/s)	Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
- 7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
- 8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-18 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 6,000 Burning Hours Lumen Maintenance Test for Light Emitting Diode Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist;

inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				Lighting and Appliance Testing Division (LATD)
2. Request energy performance testing of lighting products and other electrical devices by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-18 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for 6,000 Burning Hours Lumen Maintenance Test for Light Emitting Diode Lamps (Maximum Number of Sample is 20 per Request) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System 2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.	None	26 minute/s 26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD) • Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Lighting and Other Electrical Devices Section		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division -	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science

Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy,				Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)	
	5.3. Conduct the Test Request	270 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

54. ERTLS-LATD08-19 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Electrical Measurements (For 1 Sample) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Other Light Sources above 40W-100W @ Life Test at every 1,000 hrs	Php 10,000.00/Batch
Other Light Sources above 100W-200W @ 100 hrs Life Test	Php 9,400.00/Batch
Other Light Sources above 100W-200W @ 1,900 hrs Life Test-	Php 45,400.00/Batch
Other Light Sources above 100W-200W Lumen Maintenance	Php 54,800.00/Batch
Other Light Sources above 100W-200W @ Life Test at every 1,000 hrs	Php 20,000.00/Batch

55. ERTLS-LATD08-20 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Electrical Measurements (For 2 Samples) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labelling Program (PELP) as well as in support of the research and development activities of local manufacturers, lighting application companies, importers, the industry sector, academe, and government institutions. The testing covers either the photometric or electrical characteristics of the test samples or both the photometric and electrical characteristics of the test samples.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, lighting industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and 2. One (1) photograph of the test sample markings or specifications.	
4. Working/Functional Omnidirectional/Non-Directional Light Source/s (Sample: 2 Samples)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD22-20 Energy Performance Testing of Omnidirectional/Non-Directional Light Sources Using Gonio Photometry for Electrical Measurements (For 2 Samples) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Remarks: <i>Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).</i>		
3. Photographs of the test sample/s to be tested (Sample: 3 Photographs)		Applicant / Client
Remarks: <i>Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System:</i> - Two (2) photographs showing the full appearance of the test sample, each from different sides (front and back or opposing view); and - One (1) photograph of the test sample markings or specifications.		
4. Working/Functional Directional Light Source/s (Sample: 1 Sample)		Applicant / Client
Remarks: - Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. - Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. - Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. - A technical representative should be present during the submission of samples for the conduct of pre-testing inspection and evaluation. - The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. - After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.		

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of calibration requests. Please refer to "ERTLS-LATD23 Energy Performance Testing of Directional Light Sources Using Gonio Photometry (For 1 Sample) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other	1.1. 5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction:	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research

1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Clients can choose to send their test sample(s) to the Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section test facility by either physical delivery or using a courier service. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Lighting and Other Electrical Devices will examine the received test sample(s) to confirm their suitability for testing. If any signs of mishandling or other factors that could influence the accuracy of the test are identified, the client will be notified promptly to submit a new test sample(s). 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Lighting and Other Electrical Devices Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare and generate Test Report/s	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and prepares transmittal letter	4 hour/s	• Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and

			Appliance Testing Division (LATD)
	5.6. Approve and sign the transmittal letter	4 hour/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download	4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 5 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Light Source - Performance Verification Test with and without Energy Saving Device using Sphere Photometry	Php 1,480.00
Light Source - Performance Verification Test with and without Energy Saving Device using Gonio Photometry	Php 23,200.00
Energy Saving Device Electrical Measurement Self Consumption Test	Php 440.00

60. ERTLS-LATD10 Energy Performance Testing of Air Conditioners for Fixed Speed (For 1 Sample) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the air conditioner to be tested 2. Front view of the air conditioner to be tested 3. Name plate rating of the air conditioner to be tested 4. Serial number of the air conditioner to be tested	
4. Working/Functional Fixed Speed Air Conditioner (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. For split-type air conditioners, the customer's authorized and qualified technicians shall install the units inside the facility in accordance with the manufacturer's instruction manual and PNS ISO 5151. 5. For special types of air conditioner, customers should provide necessary support material/equipment to be used in testing (e.g., support bars). 6. All technicians providing assistance to or representing customers shall log all tools and equipment they will bring inside the test facility. 7. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 8. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: ◦ First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued.	

- *Second Notice* – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.
 - *Third Notice* – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
9. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
10. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD24 Energy Performance Testing of Air Conditioners for Fixed Speed (For 1 Sample) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are	1.1. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: ◦ First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued.			

- *Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.*
 - *Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.*
9. *Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.*
10. *Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.*

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD24-02 Energy Performance Testing of Air Conditioners for Fixed Speed with Energy Saving Device through Manual Processing". 4. For special cases of testing/calibration , clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

the test's accuracy are detected, Lighting and Appliance Testing Division - Appliance and Equipment Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
2. Request testing service by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD24-02 Energy Performance Testing of Air Conditioners for Fixed Speed with Energy Saving Device through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. 63. ERTLS-LATD10-03 Energy Performance Testing of Air Conditioners for Variable Speed (For 1 Sample) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the air conditioner to be tested 2. Front view of the air conditioner to be tested 3. Name plate rating of the air conditioner to be tested 4. Serial number of the air conditioner to be tested	
4. Working/Functional Variable Speed Air Conditioner (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. For split-type air conditioners, the customer's authorized and qualified technicians shall install the units inside the facility in accordance with the manufacturer's instruction manual and PNS ISO 5151. 5. For special types of air conditioner, customers should provide necessary support material/equipment to be used in testing (e.g., support bars). 6. All technicians providing assistance to or representing customers shall log all tools and equipment they will bring inside the test facility. 7. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 8. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: ◦ First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued.	

- *Second Notice* – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.
 - *Third Notice* – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.
9. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
10. Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 9 working day/s, 4 hour/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Testing fee per sample of air conditioner (Full Load)	Php 12,400.00/ sample
Testing fee per sample of air conditioner (Half Load)	Php 12,400.00/ sample
Total testing fee for two samples of air conditioners (Full load)	Php 24,800.00
Total testing fee for two samples of air conditioners (Half load)	Php 24,800.00

65. ERTLS-LATD10-05 Energy Performance Testing of Air Conditioners for Variable Speed with Energy Saving Device through Energy Research and Testing Laboratory Services - Online Services Management System

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the air conditioner to be tested 2. Front view of the air conditioner to be tested 3. Name plate rating of the air conditioner to be tested 4. Serial number of the air conditioner to be tested	
4. Working/Functional Variable Speed Air Conditioner with Energy Saving Device (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. For split-type air conditioners, the customer's authorized and qualified technicians shall install the units inside the facility in accordance with the manufacturer's instruction manual and PNS ISO 5151. 5. For special types of air conditioner, customers should provide necessary support material/equipment to be used in testing (e.g., support bars). 6. All technicians providing assistance to or representing customers shall log all tools and equipment they will bring inside the test facility. 7. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 8. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued.	

- *Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.*
- 9. *Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.*
- 10. *Proper authorization is required to pull-out test sample(s) from Lighting and Appliance Testing Division.*

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: - Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. - If the client is already registered, skip this step, and proceed to client step no. 2. - If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD24-05 Energy Performance Testing of Air Conditioners for Variable Speed with Energy Saving Device through Manual Processing". - For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. - When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

detected, Lighting and Appliance Testing Division - Appliance and Equipment Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request testing service by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD24-05 Energy Performance Testing of Air Conditioners for Variable Speed with Energy Saving Device through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through		26 minute/s	• Laboratory Technician II /

	Collection Monitoring System (COMS)			Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	• Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	• Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	• Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Appliance and Equipment Section		2 hour/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send test sample to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Client shall ensure that the delivered test sample/s is working properly. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Appliance and Equipment Section is not liable for any damage on test sample/s during logistics. 5. For split type air conditioner, the client shall bring their own technician. 6. Wait for the completion of test service. 7. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 8. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 9. Claim/retrieve the sample at Lighting Appliance Testing Division - Appliance and Equipment Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	3 working day/s, 4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare the test report/s and transmittal letter.	2 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and review transmittal letter	1 working day/s	• Senior Science Research Specialist / Supervising

			Science Research Specialist; Lighting and Appliance Testing Division (LATD)						
	5.6. Review and sign the transmittal letter	1 working day/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)						
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download	4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)						
General Remarks After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

detected, Lighting and Appliance Testing Division - Appliance and Equipment Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request testing service by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-01 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing (For 3 Samples Below 6 Cubic Feet) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.2. Prepare the Billing Statement (BS) through		26 minute/s	• Laboratory Technician II /

	Collection Monitoring System (COMS)			Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	• Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	• Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	• Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Appliance and Equipment Section		2 hour/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send testing sample to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Client shall ensure that the delivered test sample/s is working properly. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Appliance and Equipment Section is not liable for any damage on test sample/s during logistics. 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Appliance and Equipment Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	22 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare the test report/s and transmittal letter.	3 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and review transmittal letter	1 working day/s	• Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 29 working day/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
• Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

68. ERTLS-LATD11-02 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing (For 1 Sample Above 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

	3.3. Approve the Billing Statement		26 minute/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	• Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	• Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	• Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Appliance and Equipment Section		2 hour/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send testing sample to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research

Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Client shall ensure that the delivered test sample/s is working properly. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Appliance and Equipment Section is not liable for any damage on test sample/s during logistics. 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Appliance and Equipment Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	22 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare the test report/s and transmittal letter.	2 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and review transmittal letter	1 working day/s	• Senior Science Research Specialist / Supervising

				Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 28 working day/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
• Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

70. ERTLS-LATD11-04 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing (For 4 Samples Below 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 4 Samples)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-04 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing (For 4 Samples Below 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

detected, Lighting and Appliance Testing Division - Appliance and Equipment Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request testing service by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-04 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing (For 4 Samples Below 6 Cubic Feet) through Manual Processing".	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. 4. Working/Functional Refrigerating Appliance (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	• Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	• Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Appliance and Equipment Section.		2 hour/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send testing sample to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section. Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist /

Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Client shall ensure that the delivered test sample/s is working properly. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Appliance and Equipment Section is not liable for any damage on test sample/s during logistics. 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Appliance and Equipment Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	10 working day/s, 4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare the test report/s and transmittal letter.	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and review transmittal letter	1 working day/s	• Senior Science Research Specialist / Supervising Science

				Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 15 working day/s, 4 hour/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

75. ERTLS-LATD11-09 Energy Performance Testing of Refrigerating Appliances for Storage Temperature Test (For 2 Samples Above 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 2 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-09 Energy Performance Testing of Refrigerating Appliances for Storage Temperature Test (For 2 Samples Above 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and	1.1. 3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 3 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Appliance and Equipment Section.		2 hour/s	• Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send testing sample to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section. Location: Lighting and Appliance Testing Division, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City	5.1. Receive the test sample(s).	None	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist /

Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Client shall ensure that the delivered test sample/s is working properly. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Appliance and Equipment Section is not liable for any damage on test sample/s during logistics. 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Appliance and Equipment Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.3. Conduct the Test Request	6 working day/s, 4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.4. Prepare the test report/s and transmittal letter.	3 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)
	5.5. Review and Approve Test Report/s, and review transmittal letter	1 working day/s	• Senior Science Research Specialist / Supervising Science

				Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 13 working day/s, 4 hour/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
• Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

80. ERTLS-LATD11-14 Energy Performance Testing of Refrigerating Appliances for Freezing Capacity Test (For 1 Sample Above 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-14 Energy Performance Testing of Refrigerating Appliances for Freezing Capacity Test (For 1 Sample Above 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 21 working day/s, 4 hour/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
• Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

83. ERTLS-LATD11-17 Energy Performance Testing of Refrigerating Appliances for Freezing Capacity Test (For 3 Samples Above 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 3 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

	5.5. Review and Approve Test Report/s, and review transmittal letter		1 working day/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 11 working day/s, 4 hour/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Testing of Refrigerator – Complete Test	Php 24,000.00/ sample
Testing of Refrigerator – Partial Test	Php 14,200.00/ sample
Ice Making Test (Optional)	Php 10,000.00/ sample
Freezing Capacity (Optional)	Php 10,000.00/ sample

85. ERTLS-LATD11-19 Energy Performance Testing of Refrigerating Appliances for Ice-Making Test (For 3 Samples Below 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 3 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-19 Energy Performance Testing of Refrigerating Appliances for Ice-Making Test (For 3 Samples Below 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact the test's accuracy are detected, Lighting and	1.1. 				Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	• Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 12 working day/s, 4 hour/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
• Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

88. ERTLS-LATD11-22 Energy Performance Testing of Refrigerating Appliances for Ice-Making Test (For 4 Samples Below 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 4 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

General Remarks				
After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.				
Total Processing Time:		Working Days: 20 working day/s, 4 hour/s		
Total Processing Fee:		Total Standard Fee: None		
		See other fees below		
Formula / Schedule of Fees				
Test Samples and Fees Table				
Samples		Fees		
Testing of Refrigerator – Complete Test		Php 24,000.00/ sample		
Testing of Refrigerator – Partial Test		Php 14,200.00/ sample		
Ice Making Test (Optional)		Php 10,000.00/ sample		
Freezing Capacity (Optional)		Php 10,000.00/ sample		

90. ERTLS-LATD11-24 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test (For 1 Sample Below 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-24 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test (For 1 Sample Below 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request testing service by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-24 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test (For 1 Sample Below 6 Cubic Feet) through Manual Processing"	2.1. Receive the request of the client through Energy Research and Testing Laboratory Services-Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	2.2. Review the service request. Click "Approve" if there are no corrections on the service request. Click "Request for Correction" if there are corrections on the service request. Energy Research and Testing Laboratory Services-Online Services Management System will notify the client to request for order of payment.		26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
3. Request for Order of Payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/	3.1. Receive the request for Order of Payment from client through Energy Research and Testing Laboratory Services - Online Services Management System	None	26 minute/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	3.2. Prepare the Billing Statement (BS) through Collection Monitoring System (COMS)		26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.3. Approve the Billing Statement		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	3.4. Receive notification that a Billing Statement has been approved. Search for the Billing Statement in Collection Monitoring System and create Order of Payment. Approve Order of Payment and send it to the client's email.		30 minute/s	Accounting Division Staff; Accounting Division (AD)
	3.5. Receive Order of Payment from Accounting Division. Lighting and Appliance Testing Division confirms receipt of Order of Payment by uploading it to Energy Research and Testing Laboratory Services - Online Services Management System (This will trigger the system to continue to the next step).		28 minute/s	Senior Science Research Specialist / Supervising Science Research Specialist ; Lighting and Appliance Testing Division (LATD)
4. Receive the Order of Payment and pay service fee/s to Department of Energy Treasury or Bank. Upload the proof of payment through Energy Research and Testing Laboratory Services - Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: Client will proceed to the next step once fees are paid.	4.1. Verify client's payment through Energy Research and Testing Laboratory Services - Online Services Management System	Formula Fees Breakdown: Test Samples and Fees Table	2 hour/s	Collection Officer; Treasury Division (TD)
	4.2. Approve the service request. Lighting and Appliance Testing Division will wait for the test sample to arrive at Appliance and Equipment Section.		2 hour/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)
5. Bring/send testing sample to Department of Energy - Lighting and Appliance Testing Division - Appliance and Equipment Section. Location: Lighting and Appliance Testing Division, Department of Energy,	5.1. Receive the test sample(s).	None	2 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research

Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City Notes/Instruction: 1. Corresponding fees should have been paid already in step 4 according to the type of testing service requested. 2. Client shall ensure that the delivered test sample/s is working properly. 3. The client is responsible for logistic arrangements and fees. 4. Lighting and Appliance Testing Division - Appliance and Equipment Section is not liable for any damage on test sample/s during logistics. 5. Wait for the completion of test service. 6. Monitor the request through Energy Research and Testing Laboratory Services - Online Services Management System or wait for Lighting and Appliance Testing Division's advice/notice for the issuance / releasing of Test Report/s. The client may also call Lighting and Appliance Testing Division for updates on the status of service. 7. Fill out customer satisfaction form and download the test report and transmittal letter in Energy Research and Testing Laboratory Services - Online Services Management System. 8. Claim/retrieve the sample at Lighting Appliance Testing Division - Appliance and Equipment Section, Department of Energy, Energy Center, Rizal Drive, Corner 34th Street, Bonifacio Global City.			Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.2. Process the request through Energy Research and Testing Laboratory Services - Online Services Management System and indicate date of start of testing and the expected end date of the service	2 hour/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

	5.4. Prepare the test report/s and transmittal letter.	1 working day/s	• Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist;; Lighting and Appliance Testing Division (LATD)

	5.5. Review and Approve Test Report/s, and review transmittal letter		1 working day/s	Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	5.6. Review and sign the transmittal letter		1 working day/s	Chief Science Research Specialist / Director; Energy Research and Testing Laboratory Services (ERTLS)
	5.7. Upload test report and transmittal letter to Energy Research and Testing Laboratory Services - Online Services Management System. Client will be notified in the Energy Research and Testing Laboratory Services - Online Services Management System once the test report and transmittal letter are ready for download		4 hour/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

General Remarks

After one-time registration and submission of service request to Energy Research and Testing Laboratory Services - Online Services Management System, client shall upload proof of payment.

Total Processing Time:	Working Days: 38 working day/s
Total Processing Fee:	Total Standard Fee: None See other fees below

Formula / Schedule of Fees

• Test Samples and Fees Table

Samples	Fees
Testing of Refrigerator – Complete Test	Php 24,000.00/ sample
Testing of Refrigerator – Partial Test	Php 14,200.00/ sample
Ice Making Test (Optional)	Php 10,000.00/ sample
Freezing Capacity (Optional)	Php 10,000.00/ sample

93. ERTLS-LATD11-27 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test (For 2 Samples Above 6 Cubic Feet) through Energy Research and Testing Laboratory Services - Online Services Management System

ISO 9001:2015 Certified

Tests, among others, are conducted in support of the Philippine Energy Labeling Program (PELP) as well as in support of the research and development activities of local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders.

Office or Division:	Lighting and Appliance Testing Division (LATD)
Classification:	Highly Technical
Type of Transaction:	G2B (Government to Business), G2C (Government to Citizen), G2G (Government to Government)
Who may avail:	Local manufacturers, appliance industry players, importers, academe, government institutions and other stakeholders
Operating Hours:	7:00 AM - 4:00 PM
CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 2 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-27 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test (For 2 Samples Above 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications of mishandling or other factors that could impact	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)
	1.2. Review and approve the Client Registration		26 minute/s	Chief Science Research Specialist; Lighting and Appliance Testing Division (LATD)

the test's accuracy are detected, Lighting and Appliance Testing Division - Lighting and Other Electrical Devices Section will reject the service request. The client may submit a new request once they have rectified and resubmitted the defective sample(s).				
2. Request testing service by filling-out service request form through Energy Research and Testing Laboratory Services-Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Upload photos or videos of the sample to be tested. 2. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-27 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test (For 2 Samples Above 6 Cubic Feet) through Manual Processing".	2.1. CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance/s (Sample: 3 Sample/s)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CHECKLIST OF REQUIREMENTS	
WHERE TO SECURE	
For Standard Requirement	
1. Working electronic mail account (Sample: 1 email account)	Applicant / Client
Remarks: Electronic mail account is necessary for one-time registration to Energy Research and Testing Laboratory Services - Online Services Management System account.	
2. Electronic Signature (Sample: 1 Electronic Signature)	Applicant / Client
Remarks: Electronic signature is necessary for one-time registration in Energy Research and Testing Laboratory Services - Online Services Management System. Electronic signature should be in format of Portable Network Graphic (PNG).	
3. Photographs of the test sample/s to be tested (Sample: 4 Photographs)	Applicant / Client
Remarks: Please upload the following photographs in Energy Research and Testing Laboratory Services - Online Services Management System: 1. Front view of the box of the refrigerating appliance to be tested 2. Front view of the refrigerating appliance to be tested 3. Name plate rating of the refrigerating appliance to be tested 4. Serial number of the refrigerating appliance to be tested	
4. Working/Functional Refrigerating Appliance (Sample: 1 Sample)	Applicant / Client
Remarks: 1. Lighting and Appliance Testing Division shall not be liable for whatever damage may occur on the test sample during testing. 2. Samples to be submitted should be accompanied by a completely and accurately filled-out Service Request Form. 3. Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-32 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test plus Freezing Capacity Test (For 1 Sample Above 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.	None	26 minute/s	Laboratory Technician II / Science Research Analyst / Science Research Specialist I / Science Research Specialist II / Senior Science Research Specialist / Supervising Science Research Specialist; Lighting and Appliance Testing Division (LATD)

Lighting and Appliance Testing Division will not undertake any repair or maintenance of test sample/instrument submitted when found to be faulty/defective during testing. The item will be rejected and returned to the customer for replacement. 4. Customer should submit volume calculation and related diagrams for the determination and verification of refrigerator volume. 5. The customer shall notify Lighting and Appliance Testing Division of the schedule of retrieval of the test samples to process necessary documents and passes. 6. After testing, Lighting and Appliance Testing Division will issue notices to customers for claiming test samples according to the following timeframes: - First Notice – Customer must claim the test samples within two (2) weeks. If not claimed, a 2nd notice will be issued. - Second Notice – customer must claim the test samples within one (1) week. If not claimed a 3rd notice will be issued. - Third Notice – customer must claim items within one (1) week. If not claimed, Lighting and Appliance Testing Division will dispose of unclaimed test samples, as applicable.	

7. Only test samples of customers without any liability to Lighting and Appliance Testing Division shall be permitted for pull-out, even if the customer has already been given notice for it.
8. Proper authorization is required to pull-out testing sample(s) from Lighting and Appliance Testing Division.

CLIENT STEPS	AGENCY ACTION	FEES TO BE PAID	PROCESSING TIME	PERSON RESPONSIBLE (Designation; Office)
1. Register to Energy Research and Testing Laboratory Services – Online Services Management System Location: https://ertls-osms.doe.gov.ph/ Notes/Instruction: 1. Client registers to Energy Research and Testing Laboratory Services – Online Services Management System only once. 2. If the client is already registered, skip this step, and proceed to client step no. 2. 3. If Energy Research and Testing Laboratory Services - Online Services Management System is not working (i.e., system malfunction, server down, etc.), Lighting and Appliance Testing Division will revert to manual receiving and processing of testing requests. Please refer to "ERTLS-LATD25-34 Energy Performance Testing of Refrigerating Appliances for Energy Consumption Test and Load Processing plus Storage Temperature Test plus Freezing Capacity Test (For 4 Samples Below 6 Cubic Feet) through Manual Processing". 4. For special cases of testing/calibration, clients may prefer to call beforehand to check if Lighting and Appliance Testing Division can render the service. Client may also bring the test/calibration sample for walk-in application but will also be instructed to register and request service through Energy Research and Testing Laboratory Services – Online Services Management System. 5. When a client brings their sample(s) for walk-in application, our staff will inspect them to ensure they are suitable for testing. If any indications	1.1. Assist client in registration to Energy Research and Testing Laboratory Services – Online Services Management System.
